

1 when do we tell people to go back to work? – surely step 4 at the latest – so june...why don't we say so?

2 worth saying the tiering system was working in the early autumn – or seemed to be – before the nv kicked in

3 when can we vaccinate all adults?

4 why can't you vaccinate children ? teenagers? is that the plan? we used to have a flu jab at school...bloody useless it was too

5 what is the efficacy of the vaccines in preventing death or serious disease? how can this be best expressed? 80 per cent?

6 what are we doing w universities? can they come back in may?

7 we are surely agreeing that all kids go back to school march 8... when is kevan Collins going to set out his plan for educational recovery?

8 when can people go to second homes? when are we no longer forced to stay local? catered accommodation? why not april 12? why may 17? seems like a long time...

9 what sport are we offering on march 8? if tennis why not football? what about angling? why does outdoor team sport seem to start on 12 april but tennis and golf on 8 march? If outdoor transmission risk is low, and people's mental health is the issue, why don't we have more sport on march 8?

10 when would we announce that we were going to have vaccine passports and on what basis? by when do we expected we will have the evidence we need? march 29? april 12? this will make a big difference to people's thinking about nightclubs etc. We need to set out in the roadmap when we expect to have the moments of clarity – on vaccine passports, or test and release, or international travel, on working from home, on welcoming tourism etc etc

11 when would we announce that you can book a summer holiday ? what are the implications? surely we would have to say something by step 2 at the latest...what data would we need?

12 why would we say on may 17 that you still have to work from home? when are we going to change this?

13 if we have large events like theatres in step 3 – from may 17 – then will we insist on testing of the audience?

18 when does step 4 begin? by when can we have offered a vaccine to all adults?

19 why on earth does step 4 talk about new guidance on working from home ? does that mean you should damn well go to work if the boss says you are needed there and if not why not?

20 how can we hope to have a tourist led recovery in the summer if we don't even tell people they can go to work?

21 who is in charge of the events research programme? what is the plan for hytner?

22 we say an awful lot about deprivation and not enough about obesity

23 do we really need to be putting more barriers in everywhere, like private hire cars? if we have vaccinated everyone?

24 what are we doing to insist on vaccination of care workers?

25 what happened to the nighingales? did the NHS actually get anywhere near being overwhelmed?

26 who is going to pay for businesses to have test kits?

27 what happened to the moonshot mailshot?

28 why is it not feasible to take a series of lateral flow tests rather than self isolate?

29 please can we not refer to the four nations of the uk...

30 do we really believe in long covid? why can't we hedge it more? I bet it is complete gulf war syndrome stuff

[21/02/2021, 00:44:20] Henry Cook: Good questions PM, and I think we have at least serviceable answers to them. I'll ask the team to draw up responses to the above to look at in the morning and the doc can obv be changed if you are dissatisfied
