managed_aquisition_immunity

Hi Jeremy,

these are strange times and I am sorry to send you this out of the blue. But I trust your judgement even though we don't know each other that well.

I sit on SPI-M, so I have a legitimate route to send papers to the government. I have been drafting this for nearly two weeks, hoping I wouldn't have to send it. I have seen nothing that stops me sending it.

As best you can, can you let me have some comments and then answer two questions:

- will it help if I put this on record at UK gov
- would you do it if you were me

Neil and I have been falling out about this. I am not sure we are that far apart as of yesterday, but I need you to know he considers the key assumption here somewhat arbitrary. I see it as totally justified on the precautionary principal.

Thanks in advance

Steven
