I don't think we need to play you in yet

There is enough in the sage minutes

Contrary to Ferguson they were telling us that it wasn't a good idea to do too much suppression at once because the second wave would be more violent !!

We gotta get Helen out CabOff. She's fucking up frosty. She's fucking up me and case. Shes trying to get spads fired and cause trouble on multiple fronts. [Redacted]
 Can we get her in Monday for chat re her moving to CLG or df? I get the distinct impression MS isn't acting swiftly and she is trying to hang on waiting to get hooks into new CabSec and stay in there... we need her out ASAP. Building millions of lovely houses

You speak of briefings from team Carrie. She hasn't briefed anyone and my instructions to all were to shut the fuck up. How is any of us supposed to know where these briefings come from ? Look at the claims made on behalf of allies of Lee and Dom. That I am out in 6 months. That I can't take decisions. That Carrie is secretly forging lockdown policy !! And about a billion equally demented claims. Are you responsible for all that crap ? No ? Then look at it from my point of view. This is a totally disgusting orgy of narcissism by a government that should be solving a national crisis. We must end this. That's why I wanted to talk and see what we could jointly do to sterilise the whole thing. But if you really refuse then that's up to you.
