People do need appointments and ID. That's perfectly reasonable

Ed Taylor 04 Apr 2020 3:49 PM +00:00

Agreed. It jolted. I'll call and explain.

Also add that it's the Trusts themselves deciding who to send for tests, based upon their needs.

On testing, do we need to have a specific strand/push on testing in care homes? We are testing hospital admissions and clinical patients at risk. Do we also need a push on testing people in care? Or at least have some sort of focused effort on testing people in care. I know it is complex and the people dying in care homes are often people who were near the end regardless, but I worry that if a load of people in care start dying, there will be front pages demanding why we weren't testing people in care homes. Do we need to get ahead of this now?

Owner of the cell phone 04 Apr 2020 3:56 PM +00:00

Let's have rapid advice on this tying together all the angles

JN

Jamie Njoku-Goodwin 04 Apr 2020 3:50 PM +00:00

I'll speak to Wooding about it in case he is doing stuff on it into tomorrow

LT

Leila Tavakoli 04 Apr 2020 3:57 PM +00:00

I'll commission now

NHSE won't put up Ruth May. They have offered Powis but Ridge want a minister. Trying to hammer this out. Seeing if we can get a minister to do it instead if not Powis. Assume you're very keen not to do Ridge?

No 10 would prefer you rather than Ed A, but not a disaster if it's Ed
