PM →. What's the strategy.

- when are we going to take big decisions, of what course
- biggest damage done by overreaction

Matt → Italians bad - 400 → 700

Germany 20 → 60.

UK 13 → 19.

G7 could → when likely more mitigate, accept, produce decision for Ch's.

- groups of countries go together.

- media now decided it is coming:- rapidly get ahead of it.

→ substance of plan → set out tradeoffs → can't take decisions until see whites of eyes

→ really need to ramp up rest of govt:- BEIS

- schools.

- local residence for.

⇒ get each row to push out extra

→

PM- sceptical that our interventions will do anything.

- can be quicker on treatment than vaccine's could try work out HIV drug

Rishi → BoE → sceptical monetary policy can help
not a demand problem but productivity

→ 1) get £ to public services

2) if public not 1/4. get human capital, 3) financial markets.

- high level today: more to go tomorrow.

↳ AM to say 4pm

↳ final package tomorrow.

- ventilators → new models next week.
