

1. A brief overview of your qualifications, career history, professional expertise and major publications.

---

**BRIEF BIOGRAPHY**

---

*Professor Horby has led clinical and epidemiological research on a wide range of emerging and epidemic infections for more than two decades, including SARS, avian influenza, Ebola, Lassa fever, monkeypox, plague, and COVID-19. He leads the patient-based research component of the UK Public Health Rapid Support Team, a specialist team ready to be deployed to tackle outbreaks anywhere in the world within 48 hours. He is Executive Director of the International Severe Acute Respiratory and emerging Infections Consortium (ISARIC), a consortium of 53 international, national and local research networks whose research activities span 131 countries worldwide, and is coordinator of the African coalition for Epidemic Research, Response and Training (ALERT), a sub-Saharan Africa consortium on clinical research for epidemic-prone infections, with 21 partner institutions and representation across 25 sub-Saharan Africa countries. He is currently Chief Investigator of randomised controlled trials in plague, monkeypox and COVID-19. The UK Randomised Evaluation of COVID-19 therapy (RECOVERY) is the largest randomised controlled trial of COVID-19 in the world and changed global treatment practices for COVID-19 twice in less than 100 days. He has advised the European Medicines Agency and the U.S. Food and Drug Administration on treatments for COVID-19. He advises the World Health Organisation on epidemic preparedness, clinical research and clinical trial design for epidemic infectious diseases. He is Chair of the UK Department of Health and Social Care expert advisory committee, the New and Emerging Respiratory Virus Threats Advisory Group (NERVTAG) and was a member of the UK Government's Scientific Advisory Group for Emergencies (SAGE) for COVID-19.*

### **Publications**

270 publications; 51,000 citations; h-index 80  
 A list of my publications can be found [here](#)

### **Advisory positions and other roles**

#### **Executive Director, International Severe Acute Respiratory and emerging Infections Consortium (ISARIC)**

2016 - present

#### **Chair, New and Emerging Respiratory Virus Threats Advisory Group,**

UK Department of Health

Chair (21<sup>st</sup> May 2018 – present)

Committee Member (1<sup>st</sup> August 2014 – 20th May 2018)

#### **Member, Scientific Advisory Group for Emergencies (SAGE)**

UK Government, COVID-19 response

**Principal Investigator**, African Coalition for Epidemic Research, Response and Training.

#### **Pasteur International Network**

Scientific Steering Committee Member

July 2019 – current

#### **ANRS Maladies Infectieuses Emergentes.**

Scientific Advisory Board Member

2. A list of the groups (i.e. SAGE and/or any of its sub-groups) in which you have been a participant, and the relevant time periods.

*Member of SAGE COVID-19.*

*Chair of the New and Emerging Respiratory Viruses Threats Advisory Group (NERVTAG). Please note that NERVTAG is not a subgroup of SAGE, it is a stand-alone DHSC committee. NERVTAG did provide advice to SAGE and to DHSC during the pandemic.*

3. An overview of your involvement with those groups between January 2020 and February 2022, including:

a. When and how you came to be a participant;

*I was Invited to membership of SAGE as Chair of the NERVTAG.*

*I was a member of NERVTAG from 1<sup>st</sup> August 2014 to 20<sup>th</sup> May 2018. Following competitive interview, I became Chair of NERVTAG on 21<sup>st</sup> May 2018.*

b. The number of meetings you attended, and your contributions to those meetings;

*I attended 89 SAGE meetings. First SAGE meeting attended was meeting 01. Last SAGE meeting attended was meeting 105. A List of SAGE meetings attended is available upon request.*

105 SAGE meetings took place between 22/01/2020 to 10/02/2022 following the activation of SAGE to advise on the UK government's response to the Covid-19 pandemic. Details of my individual participation can be found below. Further details of each meeting, for example, the minutes, can be found online here: <https://www.gov.uk/government/collections/scientific-evidence-supporting-the-government-response-to-coronavirus-covid-19>

| No. of SAGE meetings individual attended as a participant | No. of SAGE meetings individual attended as an observer | Total no. of meetings attended | Individuals name ever redacted from published minutes? | No. of Redactions | First SAGE meeting attended by individual | Last SAGE meeting attended by individual |
|-----------------------------------------------------------|---------------------------------------------------------|--------------------------------|--------------------------------------------------------|-------------------|-------------------------------------------|------------------------------------------|
| 89                                                        | 0                                                       | 89                             |                                                        | 0                 | SAGE 1                                    | SAGE 105                                 |

*The table below shows the NERVTAG COVID-19 related meetings (an additional 4 non-COVID NERVTAG meetings occurred over the time period). I Chaired almost all of the main NERVTAG meetings, the Birdtable meetings and the extraordinary meetings.*

| <b>Meeting</b>                                     | <b>Attendance of P Horby</b> |
|----------------------------------------------------|------------------------------|
| 2020 NERVTAG COVID-19 meetings 1 – 40              | 39                           |
| 2021 NERVTAG COVID-19 meetings 41-63               | 22                           |
| 2022 NERVTAG COVID-19 meetings 64-65               | 2                            |
| 2020 Birdtable meetings <sup>1</sup>               | 10                           |
| Other Extraordinary COVID-19 meetings*             | 7                            |
| Clinical risk stratification subgroup, 12 meetings | 7                            |
| Novel therapeutics subgroup, 4 meetings            | 4                            |

*\*The other extraordinary meetings took place on:*

- 03/03/2020
- 26/04/2020
- 21/12/2020
- 23/12/2020

<sup>1</sup> A 'birdtable' meeting was the name given to unstructured meetings where participants could raise any new information or question they felt to be relevant to the terms of reference of NERVTAG. These meetings were established to provide a forum for thinking outside of the scope of commissioned and routine agenda items.

- 12/01/2021
- 19/01/2021
- 09/07/2021
- 25/11/2021

c. Your role in providing research, information and advice.

*As a member of SAGE, I contributed to the provision of scientific advice to the UK Government. As Chair of NERVTAG I coordinated the provision of independent scientific advice to SAGE and to DHSC as requested through commissions and on issues raised by the committee membership. As Chair of NERVTAG I also convened ad hoc task and finish subgroups of NERVTAG to provide specialist advice e.g. the clinical risk stratification subgroup that developed the QCOVID risk calculator.*

4. A summary of any documents to which you contributed for the purpose of advising SAGE and/or its related subgroups on the Covid-19 pandemic. Please include links to those documents where possible.

*The NERVTAG annual report January 2020 to June 2021 summarises the activities of NERVTAG including input to SAGE over the period covered by the report;  
NERVTAG 5th annual report: January 2020 to June 2021.  
<https://app.box.com/s/qdlzn521h06891utpzqlfo9svy4wnu0d/file/892786945723>*

*Here is a list of NERVTAG papers that went to SAGE. I was involved in some aspects of the majority of these papers:*

*NERVTAG: Distance, time, handshakes, 12 March 2020. <https://www.gov.uk/government/publications/nervtag-distance-time-handshakes-12-march-2020>*

*NERVTAG: At what point might meaningful results from clinical trials be available? 30 March 2020. <https://www.gov.uk/government/publications/nervtag-at-what-point-might-meaningful-results-from-clinical-trials-be-available-30-march-2020>*

*NERVTAG: Duration of infectiousness following symptoms onset in COVID-19, 13 April 2020. <https://www.gov.uk/government/publications/nervtag-duration-of-infectiousness-following-symptoms-onset-in-covid-19-13-april-2020>*

*NERVTAG: Face mask use in the community, 13 April 2020. <https://www.gov.uk/government/publications/nervtag-face-mask-use-in-the-community-13-april-2020>*

*NERVTAG: Wearing facemasks in a community setting - options and evidence, 16 April 2020. <https://www.gov.uk/government/publications/nervtag-wearing-facemasks-in-a-community-setting-options-and-evidence-16-april-2020>*

5. A summary of any articles you have written, interviews and/or evidence you have given regarding the work of the above-mentioned groups and/or the UK's response to the Covid-19 pandemic. Please include links to those documents where possible.

*I participated in three Parliamentary committees:*

(i) Tuesday 10 March. 10:00-11:00

*Science and Technology Committee briefing on the COVID-19 outbreak.*

(ii) 4 November 2020

*Inquiry Coronavirus: lessons learnt*

*Witnesses Professor Peter Horby (Professor of Emerging Infectious Diseases and Global Health at University of Oxford), Professor Andrew Pollard (Trial Chief Investigator at University of Oxford), Professor Robin Shattock (Chair in Mucosal Infection and Immunity at Imperial College London), Professor Wei Shen Lim (Chair, COVID-19 Panel at Joint Committee on Vaccination and Immunisation), and Kate Bingham (Chair at UK Vaccine Taskforce)*  
*Committees Science and Technology Committee, and Health and Social Care Committee*

(iii) 23 December 2020

*Inquiry UK Science, Research and Technology Capability and Influence in Global Disease Outbreaks*  
*Witnesses Professor Neil Ferguson OBE (Director at MRC Centre for Global Infectious Disease Analysis at Imperial College London), Professor Peter Horby (Chair at New and Emerging*

*Respiratory Virus Threats Advisory Group (NERVTAG)), and Professor Wendy Barclay (Head of the Department of Infectious Disease at Imperial College London)  
Committees Science and Technology Committee*

*I gave numerous media interviews and appeared in many print articles. These media items were related mostly to my content knowledge on emerging respiratory viruses and as the Chief Investigator of the RECOVERY trial of therapeutics for COVID-19. See annex for a list.*

6. Your views as to whether the work of the above-mentioned groups in responding to the Covid-19 pandemic (or the UK's response more generally) succeeded in its aims. This may include, but is not limited to, your views on:

a. The composition of the groups and/or their diversity of expertise;

*NERVTAG is multi-disciplinary, which I think was a benefit. The composition of both SAGE and NERVTAG evolved during the pandemic to meet emerging needs and to account for the standing-up of new groups such as EMG.*

b. The way in which the groups were commissioned to work on the relevant issues;

*The commissions were sometimes rather broadly specified and we needed to seek clarification as to the specific question or policy issue for which advice was required.*

c. The resources and support that were available;

*The workload was extremely heavy as committee membership was in addition to usual work responsibilities. Later in the pandemic we seconded public health registrars to support the work of NERVTAG, which proved to be very useful.*

d. The advice given and/or recommendations that were made;

*It is important to recognise that advice was given based the best evidence available at the time the advice was given. The inquiry must be rigorous in guarding against judging advice based upon post hoc knowledge and experiences.*

e. The extent to which the groups worked effectively together;

*In my experience, SAGE and NERVTAG worked well together, although at the outset there was some lack of clarity about lines of accountability e.g. who could commission work from NERVTAG.*

7. Your views as to any lessons that can be learned from the UK's response to the Covid-19 pandemic, in particular relating to the work of the above-mentioned groups. Please describe any changes that have already been made, and set out any recommendations for further changes that you think the Inquiry should consider making.

*I have not had time to reflect on this is sufficient depth to provide a response at this time.*

8. A brief description of documentation relating to these matters that you hold (including soft copy material held electronically). Please retain all such material. I am not asking for you to provide us with this material at this stage, but I may request that you do so in due course.

*I use an academic email address and most documents and correspondence will be stored there. as well as stored on the file system on my laptop, where documents are saved. NERVTAG correspondence and documents are copied to the NERVTAG secretariat inbox and will be available*

UK COVID-19 Inquiry: Module 2 – rule 9 request to Professor Sir Peter Horby  
Ref: M2/SAGE/01/PH

*there also. SAGE correspondence and documents are copied to the Go-Science SAGE secretariat inbox and will be available there also.*

**Annex: Media exposure of Professor Sir Peter Horby**
