[14/07/2021, 17:42:47] John Harden: Ta [NR] was asking me. I'll let her know tomorrow. Switched my laptop off for the day - had enough! 🙄  
[14/07/2021, 17:46:54] ~ Alison Strath: I did my upgrade to my laptop on Monday night and yesterday lost my search key and therefore access to outlook etc which is still not resolved and today the internet at my mums has gone down so I have had to try and work off my SG iPhone and it's tiny screen and 4g. It's been horrendous so I am switching too John 🤔🔄  
[14/07/2021, 17:47:48] John Harden: 🙌

[14/07/2021, 18:08:22] Nicola Steedman: Graham, can I ask you something re: the opening up safely care homes guidance? In terms of the indoor 1m guidance, will this apply to just residents? Or now also staff? In level 0 I mean...  
[14/07/2021, 18:58:11] ~ Graham Ellis: 1m level 0 for residents - staff to try to maintain distance where they can and maintain staff to staff distance as much as possible. For residents being 1m between residents can be hard for conversation given high rate of deafness of degrees. Hope beyond 9th august resident to resident distancing removed and staff remain where possible. Can't remember exact wording on that....  
[14/07/2021, 18:58:29] ~ Graham Ellis: Sorry clinical today so don't have pc in front of me at the moment  
[14/07/2021, 18:58:51] Nicola Steedman: That's perfect, don't worry. Thank you! 😊
