

13/05/2021, 09:42 - **Penelope Cooper** 🙄
 13/05/2021, 09:42 - **Ken Thomson** I feel moved at this point to remind you that this channel is FOI-recoverable. 🙄
 13/05/2021, 09:43 - **Penelope** Clear the chat!
 13/05/2021, 09:43 - Jim McMenamin: Happy to do so - Lan reduced from 51 to 39 but fair comment
 13/05/2021, 09:44 - Jason Leitch: WhatsApp deletion is a pre-bed ritual.
 13/05/2021, 10:06 - Gregor Smith: Cab Sec looking for briefing by 3 and support for 4N call at 5. Do we know what the battle rhythm is for today yet? SAGE is 3-4. CMO AG 4-6. It would be really helpful to establish this ASAP.
 13/05/2021, 10:08 - Richard Foggo: Gregor, although subject to change, my team will do briefing and we can attend, assuming it's the usual silent thing. Might they want senior clinician on 4 Nations?
 13/05/2021, 10:10 - Richard Foggo: Christine McLaughlin and I spoke this morning about outbreak playbook. Penelope, I have just emailed you on that. My preference going in to any ministerial discussion would be to have it nailed.
 13/05/2021, 10:10 - **Penelope** 👍
 13/05/2021, 10:11 - Gregor Smith: I've asked **NR** whether she wants to talk through.
 13/05/2021, 10:11 - Richard Foggo: 👍👍
 13/05/2021, 10:11 - Jason Leitch: 👍
 13/05/2021, 10:12 - Jason Leitch: I can't do 5-6. I'm at royal college. I can do anything else.
 13/05/2021, 10:12 - **Penelope** She'll need briefing on the domestic certification plan that has come in from left field. **UKG** planning to introduce from 21/6 based on _self testing_
 13/05/2021, 10:13 - **Penelope** CDL added it as a throw away line at the end of the call yesterday, none of them picked it up but I know none of them are in favour. I'm picking up with Wales
 13/05/2021, 10:14 - Richard Foggo: Is **NR** S in loop?
 13/05/2021, 10:14 - **Ken Thomson** On battle rhythm, I'll propose something ASAP.
 13/05/2021, 10:21 - Jim McMenamin: S gene target failure dropped to 58.8% on the figures today. Glasgow worst affected at 42.7% SGTF with Lothian at 50% now. Gregor interesting that Lan (91.7%) one of least affected as is Grampian (85.7%).
 13/05/2021, 10:21 - Jim McMenamin: Fuller discussion will follow in NIMT
 13/05/2021, 10:21 - Gregor Smith: Shit.
 13/05/2021, 13:08 - **Ken Thomson** Rhythm from here:

Huddle of this group at 15:00?

SGoRR(O) at 15:30

Advice tonight - I don't think it can wait until tomorrow & Four Harms. Am sorting that out separately.

13/05/2021, 13:09 - Jason Leitch: 👍
 13/05/2021, 13:10 - Richard Foggo: Is **NR** p's note the primary vehicle for advice on Glasgow?
 13/05/2021, 13:10 - **Penelope Cooper** 👍
 13/05/2021, 13:10 - Gregor Smith: Can't - I have sage 1500-1600. Briefing Cab Sec at 1600/1630.
 13/05/2021, 13:10 - **Penelope** What v time is the 4 Nations Health ministers?
 13/05/2021, 13:10 - Richard Foggo: 5
 13/05/2021, 13:11 - **Ken Thomson** I don't think the timing of that can work. About to email.
 13/05/2021, 13:29 - **Ken Thomson** Hearing that **UKG** may hold Bolton and possibly other areas back from easing of restrictions (Hancock via **NR** and **NR**). Do we know when they'd confirm / announce?
 13/05/2021, 13:31 - Gregor Smith: Should we see f we can agree a pause on any further announcements pending assessment of situation over next few days. Just been asked to approve a letter for care homes patients home visits and it feels very loose to be communicating anything else pending further info.
 13/05/2021, 13:32 - **Penelope** This would avoid embarrassing U turns
 13/05/2021, 13:34 - **Ken Thomson** But it would in fact be a U turn from Tuesday's announcement, if we pause implementing it. Not saying we can't, and I think we should on things like care home visiting; but proportionality looms.
 13/05/2021, 13:34 - Gregor Smith **NR** just confirmed with me. Surprising as was discounted yesterday.
 13/05/2021, 13:35 - **Ken Thomson** Could pause where that is proportionate to concerns: which is what we already did on Moray, and could consider for Glasgow.
