PM meeting. 1/9: strategy.

PM - really difficult landscape - looks as though other countries paying price on infection rates. We spread so far - but brace for it hitting us same way.
- cannot go back to solutions of march.
→ we need a new strategy; elements coming together.

AM - we could do much more with ringfence etc w/ capacity we have.

→ we need to set more aggressive targets.

CMO - lateral flow for virus is still some way off.

John Bell - close to having infectious levels.

CSA: a) ↑ capacity to high risk people - 10% of pop.

b) testing to walk into env, lower, go about business.

PM → ~~so~~ we need to tighten visits care
homes; check have PPE etc.

→ need to take v fast decisions what to do.

- by end of today, package of actions.

PPE, visitors, staff working, no social.

"fuck you PM. look what's happening in care homes".

Some → staff complacent.

~~Standards~~

→ care ~~it~~ go up → start w/ 3.

80 - NHS could achieve a day: of from 40.

SSO in public - was 440.

→ Dido → big hash Monday how cases
have got into care homes.

- Patricia → doubling here week - 10 days.

PM → we need to make argument
again on why we are doing this.

Care - all 4 nations save place up in
cities more than rural areas.

crisis → from waiting & seeing

strong argument package will not prove enough
~~to~~ to get R < 1. lots in managing.

SC - we need to give up all data for peer review.

scare people into doing covid-scare way.

Lee: we have to coexist w/ virus.

PM: take more people with us.

2. Dan, can you model leisure lockdown.
- schools, work, n.e.r.

David Hunter - oxford - not enough

Berk Henggen, Carol Sikora - too far.

swedish epi guy: Anders.

PM - want to hear other views - set up.

PM - Radical change in behaviour, exponential growth
500/day in 7 weeks' time.

- unless grip now, more deaths than last spring.

- much at NHS + economy.

- navigate coronavirus + economy back

or NHS at break.

March, rather never holiday next week.
