Do we know what is causing this surge in Covid. Even in rural Essex it's soaring?

We do not exactly but we've got some theories. I'll call you afterwards with some very worrying news I don't want to discuss on the open call yet

Ok. I've got a lot questions but we should talk first & I'll just listen to the call. Feel free to bring me in if there's anything specific to home office and enforcement you'd like to cover
