am off grid from 3. all will be fine. hopefully home tmrw pm... I think we must get Case into it. He buys the reform agenda, hes pro firing duffers, hes supported the no10 takeover of CABOFF and eliminating the traditional view from there that the CABOFF is there to balance AGAINST the PM's power, etc etc. We wont find someone else with same balance of a/ on our wavelength re improving performance, b/ a 'PermSec' type already, c/ acceptable to the system without causing huge ructions -- obv there are better managers, but as we discussed getting in some private sector bad ass wd cause ructions which in the grand scheme are prob not worth it -- as we can achieve what we want without war -- and 'winning without fighting is the highest form of war'... Discuss later tmrw or fri...
