Subject: RE: admission and discharge guidance

I would think no place for testing prior to discharge as negative one day can be positive the next.

Subject: RE: admission and discharge guidance

Just to flag, I've been sent a couple of clear messages that we really need to address the COVID testing before transfer to existing/temp care homes and include it in the guidance or it will fall over.

So even if we defer the finance content somehow, we need to nail that one.
