

**Meeting with Jamie Hepburn**  
**14 August 2020**  
**11:00-12:00**

**Dial in Details**

UK (freephone) [ I&S ]  
UK Phone Number [ I&S ]  
Guest Passcode: [ I&S ]

**Agenda**

**Any Opening Remarks**

Roz

**1) Recovery**

Continue to be concerned that the level of stimulus is insufficient to meet the scale of the challenge

Need to ensure support is targeted at key strategic assets that support the transition to the green economy- e.g. [ NR ]

Essential that Fair Work Conditionality is built into procurement, commissioning, and financial support. At present Fair Work First is the approach being used in Scottish Enterprise- what progress is being made rolling this out across funding streams?

Can you give an update on the Scottish Government's job guarantee scheme for young people- you say the living wage is an ambition what does that mean in practical terms?

**Lead Roz**

**2) Response**

**a) Update on how well sectorial guidance is being enforced**

What overview can be given of how the sectorial guidance is being enforced in different sectors?

What issues are being uncovered by HSE spot checks?

Are the Scottish Government mailboxes being used – are they highlighting any issues across or within sectors?

We are aware that in some sectors employers continue to lobby for a diminution in the guidance e.g. In manufacturing- employers are calling for a reduction of 2m distancing to 1m. Are there plans for the Scottish Government to make further exemptions on 2m distancing in certain sectors?

**Lead Roz**

**b) Shielding**

- Concerns around scoring of high risk groups
- Concerns about the sudden switch from shielded to in work.

**Lead [ NR ], Follow-up [ NR ]**

**Any Closing Remarks**
