...

Tone deaf statement from the National Clinical Director. Thousands of Scots struggling & face a miserable Dickensian Christmas after months of lockdown. Not everyone has unlimited digital access. The real "fiction" is @Scotgov is handling the pandemic well

Wow. Tone deaf? I didn't suggest a miserable Dickensian Christmas Richard. If you listen to the interview I said a large multi-household family gathering doesn't seem likely and what we're all doing now will I hope get us closer to a family Christmas...for me, for you and others
