

**NOTICE OF DETERMINATION**  
**CORE PARTICIPANT APPLICATION**  
**MODULE 6 - DISABILITY CHARITIES CONSORTIUM**

**Introduction**

1. In my [Opening Statement](#) on 21 July 2022, I explained that Modules would be announced and opened in sequence, with those wishing to take a formal role in the Inquiry invited to apply to become Core Participants for each module. On 12 December 2023 the Inquiry opened Module 6 and invited anyone who wished to be considered as a Core Participant to that Module to submit an application in writing to the Solicitor to the Inquiry by 19 January 2024.
2. The Inquiry has published the [Provisional Outline of Scope](#) for Module 6, which states that this module will examine the impact of the Covid-19 pandemic on the publicly and privately funded adult social care sector (the “Care Sector”) in England, Wales, Scotland and Northern Ireland. Further modules will be announced and opened in due course, to address other aspects of the Inquiry’s Terms of Reference.
3. On 19 January 2024 the Inquiry received an application from the Disability Charities Consortium (“DCC”) (“the Applicant”) for Core Participant status in Module 6.
4. I made a provisional decision not to designate the Applicant as a Core Participant in Module 6, thereby declining the application (“the Provisional Decision”), on 8 February 2024. The Applicant was provided with an opportunity to renew the application in writing by 4pm on Thursday 15 February 2024.
5. The Applicant did not renew the application by the prescribed deadline. Accordingly, this Notice sets out my final decision on the application.

## Application

6. Applications for Core Participant status are considered in accordance with Rule 5 of the Inquiry Rules 2006, which provides:

*5.—(1) The chairman may designate a person as a core participant at any time during the course of the inquiry, provided that person consents to being so designated.*

*(2) In deciding whether to designate a person as a core participant, the chairman must in particular consider whether—*

- (a) the person played, or may have played, a direct and significant role in relation to the matters to which the inquiry relates;*
- (b) the person has a significant interest in an important aspect of the matters to which the inquiry relates; or*
- (c) the person may be subject to explicit or significant criticism during the inquiry proceedings or in the report, or in any interim report.*

*(3) A person ceases to be a core participant on—*

- (a) the date specified by the chairman in writing; or*
- (b) the end of the inquiry.*

7. In accordance with the approach set out in my Opening Statement and the Inquiry's [Core Participant Protocol](#), I have considered whether the application fulfils the requirements set out in Rule 5(2) in relation to the issues set out in the Provisional Outline of Scope for Module 6.

## Summary of Application

8. DCC is a coalition of disability charities, namely Business Disability Forum, Leonard Cheshire, Mencap, Mind, National Autistic Society, Royal National Institute of Blind People, Royal National Institute for Deaf People, Scope and Sense. The Applicant applies for Core Participant status under Rule 5(2)(a) and (b).
9. DCC submits that the majority of its members provide social care services to disabled people and can reflect the experience of voluntary sector providers of social care that cover supported living, residential care, day service and community provision and support. The Applicant submits that its members worked directly with government ministers to ensure that disabled people could access social care and that those

services were considered in policy making during the pandemic. The Applicant states that it was also a source of advice and information for disabled people during the pandemic via its helplines and frontline services.

10. The Applicant raises issues in its application concerning guidance, infection prevention and control such as funding issues, PPE and lack of access to other protective equipment, cuts to services, hospital discharge and vaccination prioritisation.

### **Decision for the Applicant**

11. I have considered with great care everything that is said in DCC's application. Having done so, in my discretion, I have decided not to designate DCC as a Core Participant in Module 6.
12. Module 6 will consider the impact of the Covid-19 pandemic on the publicly and privately funded adult Care Sector in England, Wales, Scotland and Northern Ireland. It will consider the impact on people's experience of the Care Sector, including residents and loved ones and workers in the Care Sector, the structure of same, the key decisions in respect of the Care Sector and the management of the pandemic in adult care and residential homes, including discharge, IPC, testing, availability of PPE, use of DNACPRs and changes to the regulatory regime.
13. Whilst I recognise the importance of the work that DCC does and the interest that DCC has in matters being investigated in Module 6, there are other organisations who I have granted CP status to who also represent providers of care to disabled people, with similar interests. I am mindful of the need to manage the Inquiry as effectively and efficiently as possible. It is my view that those organisations are better placed to assist the Inquiry on issues that providers of care to disabled people faced during the Covid-19 pandemic.
14. I am determined to run the Inquiry as thoroughly and as efficiently as possible, bearing in mind the Inquiry's wide-ranging terms of reference and the need for the Inquiry process to be rigorous and fair. Given the vast numbers of people who were involved with, or adversely affected by, the Covid-19 pandemic, very many people in this

country could potentially have an interest in it and not everyone can be granted Core Participant status for the purposes of the Inquiry hearings.

15. For all of those reasons, having considered all of the information provided by the Applicant, in light of the Provisional Outline of Scope for Module 6, I have therefore decided that the Disability Charities Consortium should not be designated as a Core Participant in Module 6 and I confirm that this is my final decision.
16. It is also not necessary for an individual or organisation to be a Core Participant in order to provide evidence to the Inquiry. The Applicant may have relevant information to give in relation to matters being examined in the Inquiry and the Inquiry will be reaching out in due course to a range of individuals, organisations and bodies to seek information, to gain their perspective on the issues raised in the modules and, where appropriate, to ask for witness statements and documents.
17. I will keep the scope of Module 6 and the designation of Core Participants under review. My decision not to designate the Applicant as a Core Participant in Module 6 does not preclude it from making a further application in respect of any later modules. I will consider any future applications the Applicant may wish to make on their merits at the time they are made.
