

9-11-20

10.10am dFM One-item agenda

Exec paper last Thurs.

Asked P.O.s to put people on stand by on Fri pm - don't know why this didn't happen.

DDH

Same position as Thurs - 2-week extension

396 in-patients

51 in ICU - highest figs yet.
No of cases reducing, nos in hospital not decreasing.

DE

Hospital figs - lag.

Real impact - level of transmission - decrease, R no lower.

Fairly effective impact - community / household focus - impact.

Retail, hospitality - levels where restrictions / mitigations can be put in place.

Differential approach - take-away collection.

Impact - evidence - alcohol / licensing - people lose inhibitions.

Late night

settings - lunch, cafe, rest. distancing.

Unanced interventions.

②

Daytime economy - not as many restrictions - fall-back from restrictions elsewhere.

e.g. clothes shops - potfall reduced Household bubbles
Give some light to hospitality.

dPM DfT response?

DfT No.

DfT Trying to understand where we are - 2 reasons in DfT paper - any other reason? Announcement to Assembly/public today?
~~Res~~

dPM Yes - decision today.

DfT DE - nuanced approach?
Detail from DfT for each part of hospitality sector?
Can we make nuanced decision?
Wet pubs v cafes / restaurants
Sub-sets of info?

dPM Direct hosp sector?

CSA No, no data, no scientific basis,
no modelling across UK.
Qualitative judge^m.

(3)

WS

V exposed

Qualitative = subjective.

Wet pubs - table service only etc.

Not comparing pubs pre-Covid + post-Covid.

Real difficulties - nuanced approach n/a.

V difficult to justify to public
- v difficult situation.3 weeks ago - hoped behaviour wd change, better track / trace
Without better info - can't be more nuanced.

Return to where we were before intervention.

CSA

Modelling - can't go back to where we were before 13 Oct -

 $R = 1.3 / 1.6$ - wd need intervention before Christmas.

Can't go back to behaviours @ 13 Oct.

DOF

Confusing - remark re differentiation between elements of hosp sector - previous decisions re wet pubs / pubs with food - undermined confidence

[frozen]

lowest paid people

[I identified at minimal impact - why another 2 weeks recommended?]

CSIA

As scientist, value qualitative judge^u as well as quantitative.
 Previous decision - based on behavioural science - qualitative judge^u - alcohol-based behaviour.
 Close contact - impact likely to be 0.05 on R - not be modest impact, nobody has conducted 'experiment' of opening close contact + nothing else.

8 PM

Reconvene from DfT, also other issues to be considered

End to phony war in Exec.

Need to change DfT paper to get consensus -

Close contact shd reopen on Fri also driving instructors.

Dual / quant evidence - decisions based on use of alcohol - distress to sector, make money on alcohol.

Wrong to keep coffee shops closed Scotland - opening hosp without alcohol, Wales - opening today.

Impact on health service,

- compromise basis to reach consensus.

Range of views in Exec, not just one.

After 8PM Any figs of self-isolation (few DfC).

(5)

CMO Previous Exec Q. Shared [I info from England, Wales - self isolating travellers. Have engaged with IIT, working with NISRA - ppe survey. NI prob same as elsewhere. 70%+ intend to isolate, but some unable to do so - work, caring. Support for individuals - community network / champions.

DPC Modelling - self isolation pay", no data. Need robust modelling - public money. Should be linked better to track / trace. Reasonable ask. When will we see this data - asked 2 weeks ago

CMO Not aware of request 2 weeks ago - asking NISRA - further survey. Can provide nos. re estimated contacts. Self-isolation - needs survey, for NISRA to do.

DPC Assumed it was being taken forward - estimate when Survey will be completed.

Need more robustness than what I have heard.

(b)

DOH COVID support pay^m - April

DRC That was for shielding.
We need clear info.

DOH Discussion on Thurs.

[C] mitigation.

£500 pay^m - thought this was interest-free loan rather than C [I].

Get officials to engage - cross-over of issues.

FW - £500 pay^m - didn't know - Barnet, M&E, demand fed.

NPC

England - 2 pay^m of £250 pw.
Discussed last week - need clear branding - self-isolation.
Need local data.

FW

£500 - part up Barnet up few guarantee - was answer given when we asked.

dfm

We need local measure of compliance - self-isolation.

Huge pieces of work.

JHK

Sympathy for need to explore

mitigations per sector which have to close.

Oct - advice = 6 weeks restrictions.
Can we relax in next fortnight, or go with DOH recommend - all restrictions for next 2 weeks.

If mitigated/relaxed, will there be repercussions - health service, ICU, staff pressured/ill.
Context - essential to have - lift restrictions - impact?

Potential over-run of health service - important decision for exec.

Maintain restrictions - 2 more weeks - need clear message re outcome, result - public messaging.

All-encompassing reward - OR mitigation of some restr. - need support package for & industry.

Costs - lot of businesses need alcohol sales to remain viable.
Close contact, pubs etc - need emergency financial package if have to remain closed.

Not just to end of this fortnight - need guarantee of protection for health service. But also need pathway to recovery, reopening.
Need consultation with industry (Hospitality) - DfE to engage

with hosp industry - can hospitality
industry survive in COVID - need
medical/scientific engage^{ment}.

DPE New designation today - contrary
to Rfs Agree^m (Joint Head of Govt -
People losing jobs, livelihoods.
Don't have info to break down
impacts.

TMIC - prospect of hosp industry
not being able to exist - lockdown
before/after Christmas - taking
away all hope.

DMH on political show yesterday.
Cycle of lockdowns - road to
no-town -

Not honest discussion at this ever.
People listening & attending.
People losing jobs - may never
work again.

Ease back restrictions, get life
back into city centre.

Moving forward - this meeting
not helping.

Can we lift some restrictions,
work with local govt - met with
local govt, help with ensuring
compliance.

Distrustful with tone of meeting.

Liverpool - mass testing, plan
for here? useful?

(a)

DFM Every lab is entitled to give view.

Testing - DOH?

DOH Looking at no. of scenarios -
students returning home pre
Xmas

CMO Went ahead w/ mass testing at
last exec - will bring paper
Liverpool - pilot, learning from
pilot. Scale - accuracy of
results - risk-reduction etc,
- might allow some more freedom
in wider society.

x Role to be determined
Pilot's role - will bring paper
- hopefully third third.
Not in position to deploy at
scale until early Spring.

DPS What are settings that are
best - NE v Rural.

CMO Testing at present - people
likely to be exposed - students
health care workers, further
pilots.

Important to await results
- but cd be made available to
other frontline workers.
- cross-dept grp to consider

Best use of technologies,

DJS Behavioural have changed over past 3 weeks - masks, traffic reduced.

R level below 1 in community, also in other settings. Ed continue to reduce - another 2 weeks - lag.

Positive - has worked,
Have we done enough?

Difficult for those impacted - at start, people thought it wouldn't work.

Today - blank sheet - lesson from DfT, but need economic impact.

Separate close contact from hospitality - keep all close contact closed or just some?
Need clear message.

Modelling as one group - close contact

Hospitality - no alcohol, - no sex or no consumption - BYOB restaurants.

Why have dinner/water v dinner/wine?

Net bars / bars with food - changing messaging? Wine OR no wine?

How to sound like this is not

prohibition.

Household uses / hospitality - only one household, or two or more? Additional safeguards - record personal details when booking? If can open - implications if premises can't afford to open - may need alcohol sales to be profitable - restaurants say they can't afford to open - compensation for restaurants.

Walk through scenarios -

communication v important,

Agree - write down, stress talk with dpts, consider + come back to agree.

DOT paper - need amendⁿ to version. Need written version of what we are agreeing - not vague info.

Agreed Exec endeavour - need to encourage maintaining good behaviour.

Need to look at Christmas - give people hope - if modify now, Xmas [] I. Huge issue for people, families.

Nobody expecting office parties etc, but want family Xmas.

Need to be clear, consistent - if we are vague, people will quote us. Need to ensure we don't fritter

away good work we have done.

DFT We have restrictions, but we are not in lockdown

Hope - Xmas

Before I make decision, need paper on impact - eg close contact, school rules - no alcohol.

Worst case - open - no alcohol, can't make profit, but not eligible for support.

Same space as other [].

Need plan for after 2 weeks.

Always making decisions at last minute.

Get paper on opening, close contact + come back to exec.

dpm Adjourn meeting

Come back - 1.00 / 1.30

DOS Self-isolate - cough @ wife.
Will get test.

No capacity to attend chamber
Send letter to Speaker - won't be there tomorrow.

If self-isolate, Assembly Online falls. - Domestic Abuse Bill
Booked test.

May need to speak to As. Commission - remote access
to chamber. Can't do Qs at

(B)

Qs re - why can someone else not do it - potential for remote working.

dfm

Good wishes.

Write letter to speaker to ask for remote working service.

DPC

30 year wish!

I have Qs in chamber, oral debate etc.

Liaise re timings for recommended meeting.

X

11.20

Adjourned - to early afternoon.

~~5.13~~

DAERA n/a

dfm

Adjourned to look at options

- Qs from DDF (in letter).

Fm + I talked - wd prefer to find consensus, or dilutes message to public.

Fm + I - discussed with DDF -

Response - diff with granularity of detail - not pos - quantitative makes more difficult.

DDF

Following on from this a.m.

Some work - still require intervention before Xmas.

Open some hospitality - impacts
on R
Specifics of data.

Chair We have best advice re quantitative
- at limits of modelling
evidence - risk of providing advice
without evidence
Relaxations discussed this a.m.
- R will rise more quickly
than with 2 more weeks of
restrictions - we need another
intervention mid-December.

Chair Sorry we can't provide more
granularity - have to work
within bounds of science
R - after next 2 weeks - if
high, won't get to Xmas
modelling
Estimate behaviours in Dec
in run-up to Xmas.
Dec R = 1.5 or higher, will be
in trouble before Xmas.
Will depend on behaviours,
compliance, & enforcement
Prob 1.4 / 1.5.

Chair Whatever road we go - problems
lot of people in trouble already
- low paid workers, will have to

(B)

go into debt - credit cards, loan sharks

DOH proposal - not good for community.

Close contact services - shd not have been closed, minimal impact on R.

Hospitality - reduced pay packet, reliance on tips.

DOH asking us to impose on low paid workers, mostly female - too much.

We told public in good faith - 14 weeks only.

R rate well below 1.

Summer/Autumn - people lost run of themselves.

Need managing on behaviours - good social distancing etc.

Key message - masks - lost message re social distancing.

Drive home message but can't hold restrictions - betrayal of Exec, I am opposed.

DOH 2 weeks - gets beyond Xmas before next intervention.

Support DAERA views - communications, messaging, compliance - Str, Enforce "Grp"

400+ people in hospital - up 30 since yesterday

Understand economic pressures, but also health pressures.

DFI v difficult. But if we have to introduce restrictions at mouth of Xmas, people will not forgive us.
If we ease restrictions now -

DOJ Not going to get anywhere until we have final proposals.
DOH proposals?

Further restrictions - Xmas - devastating.

Next week/two weeks - consider situation based on result of 4-week rest.

Close contact - reopen? Decide on what basis - any additional rest.

Hospitality - no specific proposal

Get rid of all rest or keep all rest - middle ground?

Impact of School reopening?

Problem - granularity - opened at speed, don't know impact of individual sectors on R

Leave 2-week gap between E I Test, track, trace - won't be in that space for a while.

Masks, space in shops - good compliance.

No strong feelings - close contact.

Hospitality - need more detail.

Open close contact now, wait a week
for hospitality.

Need to decide - DPH proposals?

dPM Hugely difficult.
Rst open / no alcohol - input from
Hospitality sector

2-week closure for hospitality,
enhanced support package.

Hosp sector - off sales from bar -
fix anomaly.

8.00pm curfew at alcohol sales [I].
Put in place immediately - group to
deal with compliance - safe reopening
of hosp 27/11/20

Close contact - we have room to
give hope - giving something to
public.

DHERRA point re close contact
workplace - agree.

Fini joined up way to proceed.

Don't want this conversation again
before Xmas.

Political will - move away from
circuit-breaker approach - shared
objective - WHO

Focus on finding cases

Test / trace

Handing strip - all come on board.

DPG Request

dPM Put in writing through Private
Office.

(A)
DFE

Agree - move away from endless circuit-breakers

Will share - impact of 4-week restr - work done by my dept - impact on economy. [L100M]

Not sustainable - will lead to job losses, unemployment

Poverty kills - mental health issue, destructive.

Talk about moving away from circuit-breakers, but keep coming back to circuit-breakers - v destructive.

Clarification - role of hotels?

City centre hotels - no business travel, no tourism, ~~so~~ v little travel in UK

If no pre-Christmas business, v devastating.

(B)
dflm

Hotels - same as pubs, restaurants - treat as whole Hosp sector - support for next 2 weeks, make clear - work for safe opening in 2 weeks,

Taskforce / grp to look at compliance etc along with sector - to get them opened.

DFE

Hosp sector - have met lot if times with LAs, FMs, we over past 2 weeks - don't need

extra group - need proposals for industry to allow them to reopen.
 What to work on with DfT, CMO.
 Need better way forward than circuit breakers.

dFm Households - has allowed at tables etc - grp cd look at.

DfI Trying to understand where we are going this pm.
 One paper
 If ease restrictions - will need new restriction in Dec
 Another paper with proposals re some opening?

dFm CSA - at limit of scientific advice
 Up to us to decide.
 Any decision comes with risk
 Qual / quant data.
 Behavioural issues.

DfI CSA / CMO advice - ease restrictions
 - risk of R rising mid-Dec?

CSA Yes - behaviour of population will determine rate of R - any easement - increased risk of intervention before Xmas.

Fm I + my colleagues will not agree

DH paper.

Job to be done with local govt,
Gardai much more visible in ROI
than PSNI.

Impact of restrictions on population

- avoid resele before Xmas

People relying on us to make
decisions so they can go back to
work.

Not prepared to agree DH
paper.

Told people - close for 4 weeks,
now saying 6 weeks

Compromise - open close contact,
incl driving instructors; open
unlicenced premises.

Others - close to 27th Nov.

DH

Appreciate impact on economy.

Huge impact on health service

Hospital patients staying longer

- not dying (good), but more
long-term pressure.

DOF

V delicate balance.

Priority - protect health service.

Support - slower than planned.

Held back £150m

£5m to spend.

Support to councils - covid
wardens, cleanliness

schemes - impact on ground.

Support Reinforceⁱⁿ

Additional Track / trace - funds available - can work positively, provide support. What additional interventions can we make - High St task force.

Shd try + spend / support.

DE

V diff decision

Compromise

Not only impact of relevant sectors

FM position open close contact,

appointments

- Unlicensed cafes / restaurants

- licensed - open from 27th

- Give support to sector

Support to councils for enforceⁱⁿ,

Opportunity for restaurants - to open without alcohol.

Reasonable package

Everything else - roll over.

If we extend all - trust issue,

also gives light at end of tunnel.

dFM

Find way forward - avoid division in Exec.

reluctant Accept - keep wet pubs, hotel, bars closed to 27th (licensed)

Consensus?

DOS

Restaurants - BYOR

- disallow alcohol in those rets?

Gets messy

Café / bistro / ret - no legal definition

'Unlicenced' - can bring own alcohol.

DFI

None of this is in writing -

Support soft paper,

People aiming for Xmas -

* Sound gone. *

DOS

Scope out [].

DOH

Agree issues to go into paper.

DFM

Hotels / rets / wet pubs closed

- support package.

PM

Not happy

DSEAIA

" " - Range of concessions

DFM

Will work through detail -

write down

Bar sales anomaly - DOS?

DOS

Gave back to DPC

- ad support fix.

DFM

Off sales - 8-00pm
view?

DfE&RA

People in pubs behaving better than people in homes.

CMO + CSA told us - problem with spread based in homes.

Not happy - keep pubs closed, then people drink at home.

dFm

Close contact - open up?

Low paid, women.

Not as clear-cut - 0.05 impact.

Part of package.

DfT

0.05 low figure - not insignificant in P being above 1 or below 1. will have effect on whether we have need other intervention.

Circuit breaker - only approach available to us. 0.05 significant

dFM

Trying to get balance right.

Possible - not favour approach.

Wd love to avoid vote -

prefer clear message, united front.

All decisions \Rightarrow risk

Livelihood, open some things.

Series of difficult choices.

Push to vote? or take some time.

DfE&RA

Cafés - mostly daytime, no alcohol.

Crushing life out of small

businesses,

Exec - no credibility,

2 weeks, then 4 weeks, now asking
for 6 weeks.

Need to offer community some hope

Evidence - no evidence for closing
close contacts

dfm Significant - support for sectors
in next 2 weeks (DOF).

DAFIA Cafe - rural location - 14 people
in on a Sat. No support for
being closed.

No credibility.

No compromise from DOH officials.

DOH Not up to DOH officials to
compromise - they provide advice.
Risk - more interventions
before Xmas.

DAFIA Reluctantly accept hotels/hotel.

DOH Health issue, hospital services for
all illnesses.

Inherent compromise - cafe at
2.00pm with coffee, why not at
7.00pm with dinner?

Wet pubs differentiated from
pubs / food.

Started as 6-week circuit-breaker

(Cont'd)

9-11-20

reduced to 4t.

Need to not say - will open at end
of 2 weeks

Say - trying to protect Xmas.

Hospitality - differentiate cafe / ret
- v difficult.Say - can open/close at certain times,
no alcohol.Not overly worried - close contact
services relaxAgree - financial packages for hosp
sectorIf going to open some elements of
hosp - need clarity.

Certainty re funding / support.

DPE Adjoins^m debate - 6.30 pm.

Want to vote on Exec.

Issue - HOS - extremely important
if close \Rightarrow close contact services, cafes
etc - impact on potfall - town
centres, retail.

Impact on other businesses.

Policy - R below 1.

Last Thurs R = 0.7.

People won't understand what we
want.DOF - what do support packages
look like?Working with DPE - hospitality
elements.Support - Pandemic box -
need to be clear.

dFM Trying to get consensus - can't achieve.

DOH paper - agree recom?

POH No other paper?

DSE Take DSE HOB, adjourn + reconsider issues?

dFM Trying to get agree["] - DOH not on board.

DOH I only have my paper.
No other paper/proposition - need clarity.

Refuse vote on no paper.
Careless/questionable to make decision.

Continue to point out DOH concerns.

15 Oct - single intervention not enough - our concern.

dFM Only paper - put proposal.
If want adjourn["], propose
Want to see DSE paper on support?

DOH Have heard discussion - nothing concrete.

DFI TEO to provide paper based on

dfm views / suggestions?

dfm ~~of DFI position~~ - will not agree/
support.

DFT Don't know what proposals would
look like - can't make decisions.
Consensus proposal - see on
paper.

Health advice same as last week.

dfm Health advice won't change.
We have political decision to make.

DFT Medical advice before - Went
with agreed package - everyone
can buy into.
No different this time.
Better to decide - agreed position,
all of us to support.

Don't think we will get ~~consensus~~^{agreement} on
DfH paper - won't make progress.
Get alternative approach in
place.

dfm Difference last time - DfH
accepted our views.

DFT We have no paper to consider
- what are we being asked to
agree.

DPM - Agree position in DOTH paper?
 If not agreed, difficult position, communications complex.

DOTH 9 sub papers on 11 Oct, TEO paper - all able to assess.
 I have nothing in writing to assess

DOP No joint TEO position
 Don't get papers at same time as everyone else
 Important to be involved in decision

DOF Are people in mkt to consider some easement? If not, ~~don't~~ no point
 If no decision, rest end on third night.

DPE Need to go to debate.

DAERA Will ask for cross-community vote - will fall.

DFT/DOT Need to adjourn

DPM Adjourn if we are aiming to work for consensus.

DFT Need to see paper.
Can't justify decision
?

DOF Agree with your position - but
everything will fall +
Not asking us to agree to
position tonight
Agree to seek consensual position
Pragmatic issue - DOH paper
will not be agreed.
DAERA explicit.

dPM Trying to involve everyone -
has to be collective will to find
agreement
Need to reach conclusion on
DOH paper.

You have said - you need
2 week extension.

Now because DFT say No,
you will amend?

DAERA If compromise, we can move
forward, influence behaviour.

dPM Adjourn^m - media coverage,
exes in disarray.

Don't want division

DOH - asking for adjourn^m - so we
~~DOH~~ can look for way forward.

Dof Second DOH proposal.

dFM Don't think we will find agreement
 DOH - putting forward proposal
 you won't stand over.

DPE Have to go - Assembly debate.
 Adjourn until after debate.

DOS We agree we want paper to
 come forward - compromise
 proposals. Who will draft?
 When will it come back?

dFM All we have is DOH paper
 DOH to find consensus.

DPI Not DOH job to find compromise

dFM DOH saying he is open to
 compromise - he shd bring paper

DPI Shd be TEO

dFM/FM Colin briefing media
 Shambles.

dFM Adjourn - 8.15

DOS Agree how we will achieve
 consensus?

X 6.47 Adjourn

X 10-11-20 - Reconvene
5.48

dFH Reconvene
lot of talk - compromise
DOH - 2 week extension
No consensus.
DFT - 2 week extension
DOF - " "
DOS - agree, but other proposals.
Just few hours before end of
current intervention.

DOF Prepared to discuss last night,
ready to join in when required.
No of news rec'd in writing.
Only one Exec paper - DOH.
Have to deal with.
Range of letters - suggestions,
content to deal with.
Decide on DOH paper + then move
to another conversation.
Need to get out of way -
Proposal - decide on DOH paper one
way or another.

DOH Not choice between health + economy
- all decisions will bring harms.
Advice - reduce C
Paras 11 + 12 Exec paper agreed
on 13 Oct
Hoped some compromise paper w/

come forward from TEO.

Move recommend in my paper

dFM ^{Plst} TEO not agree to DFE paper?

FM Opening comments - DOF - did not mention DFE.
DFE paper shd be considered.

dFM Apologise - did not refer to DFE paper - will come to it.

DFE Before we press further buttons, draw breath - business + population watching us - in despair.
Extremely distressing not to know if you can make a living.
Don't understand dFM position.
Had long discussion with DHT + CMO this a.m. - Respect their position.

Papers/work ongoing - impact on economy / lived.

Don't know what SF think they are proving.

Look at impact - economy, people looking for exec leadership, health staff.

Want to speak re paper

dFM I am chairing.

Dire situation - no matter what we decide, will have implications.

DOH paper -

Unfortunate it had taken so long
to get to this meeting.

DOH proposal - paper.
Then DFE paper.

DOL

People have given up - making own
decisions.

Couldn't vote on DOH paper yesterday
- community vote - damage Govt's
credibility.

Catastrophic situation - end of
week, restrictions end - pubs open,
people socializing etc.

Will need more stringent lockdown
Hospitality - we need to have put
orders in last w/e to open next
w/e.

How to reach compromise position - I
don't know.

Open to consider DFE paper - but
not prefer to extend restr. for 2
weeks - get to far side of Xmas
- may be able to move away from
circuit breakers.

Going to be hard year for hospital
- Xmas will help, get headspace
for families.

No household mixing - impact on
mental health.

Will prefer DOH - best evidence we
have. If not on table, will look

for alternative.

Absolutely need to make decision.

Embarrassed over last 24 hrs.

Theatrics.

FM

This is about theatrics - leaked last night, leaking in live time - Sam McBride.

Looking at DOTH paper - DFE paper not agreed/fds.

TEO paper not possible - dFM
 - no agree^m - have moved position
 - hotels / coffee shops.

Now want vote - it will be leaked, consequential damage to all in exec - partial briefings etc - we will all suffer.

Up to chair. Hairdresser struggling

dFM

Unfinished business from DOTH paper - support this.

Tried to look at different scenarios

DOTH advised - real risk.

This is embarrassment

We have to deal with DOTH proposal

Take exception to 'theatrics'

Hairdresser - struggling because she didn't get grant.

Tried to get consensus - look at DOTH paper, put to meeting

DAERA

Would be useful if DOF did paper on how business will be compensated. Businesses losing money every week.

Putting low-paid workers into dreadful position - Xmas.

Want compromise.

Have to use cross-community vote - don't want to
SF wants cross-comm vote

DOF

Getting tired - always using cross-comm vote. Sectarianism issue. Cuts me out of vote. If I am cut out of decision, I won't support decision.

I will not be part of Exec which consistently uses cross-comm vote - slap in face for me + my voters

dpm

I don't want cross-comm vote - does sectarianize issue.

Ask DAERA not to use cross-comm vote.

Do 2 more weeks, strong mitigation, then open all.

DAERA

No DOF paper on mitigation.

Don't gang up on us -

You call to put lower-paid workers into diff.

You want to embarrass us

DFM Not trying to embarrass.
Want to reflect views of all 5 parties.

FH This is a compromise - you don't like - not open about reason. You have moved away from compresm position
Failure of leadership.

DFM x Ask DIAERA - not to use cross-comm vote.

Open up close contact - wd be OK.

Tried to find way - DfT asked for 2 more weeks, based on all exploration with him - duty-bound to consider.

DfT - put proposal.

DIAERA x Only moving cross-comm in absence of compromise - want to achieve compromise.

DfT Wished for joint TEO paper - same as 3 weeks ago.

Hoped to find space for agree^{ing}

Increasing nos in hospital etc.

Best proposal

- 2 weeks extension

- also support packages.

£2 billion available - ref to DFE consultation earlier.
Not one against the other.
Reluctantly move my paper.

dFM Previous - you said you'd live with 2 week schools; not saying can't change advice on this paper.

~~Best~~

DE

Procedure

- Need to establish [] before cross-comm vote.

Can't support DfE position.

No compromise from DfE.

DFE paper - compromise position

Close contact services

Non-licensed cafes / etc.

Range of hospitality - not out of restrictions 27 Nov

Support cross-comm vote.

dFM

DfE/RH - want cross-comm vote?

DfE/RH

On basis of no compromise

dFM

Don't want cross-comm

NS

Need 2 bins

DFE Also support cross-comm.

x Disappointed my paper not considered before vote on DFT paper

NS

FM No

dFM Yes

DAERA No

DFC Yes

DFE No

DE No

DFO Yes

DOD Yes

DPI Yes

DOS Yes

NS

b in support

4 against

No cross-comm content.

DOS x Object to use of cross-comm
vote - used as veto to
stop consensus from
proceeding.

~~Issues bearing on community interest
shd not be subject of cc vote~~

DFE paper

DFE

lockdowns - don't work

Public - encouraged - exec saying
will find new ways:

Disappointed - doing same things
again.

Economy - families - Xmas.

Particularly annoyed by charade
- we shall be bigger + better than
that.

Paper - Annex A - short synopsis.
Headlines encapsulated in circled
letter.

Irrelevant & Sensitive

- hit to economy

labour mkt - redundancies /
potential redundancies - v high
Hit to economy - £1 billion.

Some recovery - now stalled.

Ni most pessimistic in UK.

State ^m from Michel Barnier -
no help.

Sectors hit - supply chain,
food wholesale, food service.

Most impacted young, women,
low pay - most vulnerable in
society.

dPvL comment - no access to
grants (slow). V difficult to
get money out in way we can
stand over.

1st scheme - see parameters.

Running 7/8 days - 2000
applications so far, 700/800 in
draft - 120 paid so far.

No identifiable premises.

Further letter to Exec [].

[self-employed] scheme - thank
officials.

Best thing to do - allow business to open.

Had full conversation with DfT.

Spirit of compromise - can't keep closing economy.

And some Recom - if I had free hand, wd ask for other things.

Don't want to see regulations fall on Thurs

Have incl Recom to reach consensus - trying to reach agree^m.

~~DfE~~

dFm Does DfE paper give basis for consensus?

DfE

DfE - publicly acknowledge work of officials.

Paper £100 m loss to economy
- where from?

Recom d - graduated opening - just this 2 weeks or longer?

- Impact of restrictions?

(lose contact - incl sport?)

DfE

Annex A, Table 1

- losses to economy.

Areas closed down longest, most restrictions.

Last para, page 2 - impact on

Food sector - restrictions in hospitality sector.

Annex H - most illustrative.

~~Retail stay open~~

Hospitality - graduated - open least risk first - start with coffee shops etc.

Wd like to see hotels - give choice.

Trying to offer route to reach consensus.

DFT Analysis of impact of restrictions? Sports?

DPS I haven't looked at sport - not my dept.

DFC Sports - previous guidelines.
Vs spectators - guidance.

DFT Wee football clubs, tennis coaches - close contacts? No?

DOT Paper helpful - good starting pt.

Impact on individuals - as personal as health.

Close contact - appoint^m - not walk-ins - track/trace - happy with that.

Cafes/coffee shops - need to be more robust on what we mean.

Scottish example

ban - bpm, no night time

economy

licensed restres - without alcohol,
Drill down into issue

Better recording / contact nos in
coffee shops.

Pubs/bars - off sales DFC +1
looked at.

Some can sell off licence from
bars - only bars with off-licence
can sell, or lift requiremⁿ for
licence? DFC more in position
to take forward. Need clarity.

Also - only up to 8.00 pm?

Useful - 8.00 pm closing time,
(to help pubs make a bit of money).

Good start, need some clarity.

Businesses - outside space,
heaters etc - easement for
them? Invested in equip^m

"Safely Open" group.

Beyond paper - big issue -
ventilation. Most restaurants
- cosy, intimate

Options - ventilation. Safely Open
grp.

If invest in ventilation - added
protection - for future working
grp.

dFM

Need clarity on no of issues.

Always lot of anomalies in Regs.

DOH Trying to find out where paper sits with paper of 13 Oct.
 - guidance - no unnecessary travel.

Paper changes this? Food/drink in hotels?

→ Sports, places of worship.

How to marry up this paper with current regs before Thurs?
 Regs will fall on Thurs
 Economic proposals

DPS My reading - economic proposal
 - accounting for 2 week
 roller coaster extension - if not in
 DPS paper, will roll over -
 DPS paper - only proposing
 economic changes, not proposing
 all changes.

DPS Keep elements of proposal as are,
 but amend proposal in my
 paper. (Keep gates closed).

DOH Guidance - no unnecessary
 travel - but how can hotels open?
 w/ 2 stays - can't go to local
 pub, but can go to hotel bar.
 If we remove 'no unnecessary
 travel' from guidance - big
 impact.

DOF

Proposals - roll over everything else for 2 weeks, amend DFE.

Propositions - go against health advice

Broader economic societal impact

Proposition d - graduated manner - vague, over 2 next 2 weeks, or longer?

Prop q - problematic.

Coffee shops, sandwich bars - no fixed definition - strays into night-time economy.

Graduated opening - from 27th.

- Reward for economic support are brought to me - 11,000+ applications - support given to 2300+ businesses - £8m.

300 apps. - don't meet criteria.

Proposal - businesses affected

beyond Thurs [I]

Schemes for Wet Pubs - take proposals for support, one I will develop - one-off cash pay^m.

Larger hotels - DFE

Smaller B+BS - should get one-off pay^m - DFE / Tourism schemes or I can take forward.

DFE

Officials in DFE - tiers of economy incl wet pubs. Acknowledge diff's.

Thought B+BS in local restriction

scheme.

DOF They are - but lost out earlier.

DPE Don't disagree. Some people we just didn't get to

- ~ Additional paper for Exec - Supply chain scheme. Hard to define, work within budget. Self-employed scheme almost ready.

DPC Off sales. Self-~~sealed~~^{sealed}) off sales. Any bar can sell - easiest to that, most straightforward way.

FM Agree with DPC - sealed off sales, OK. Can't take cocktails, pints. DPE paper - amend^{ed} to paper of 13 Oct

Graduated / control - relate to F, Safely Opened - Ready by 27th.

Hotels open for workers - didn't read proposition to open generally - in context of 13th paper.

Coffee shops - close at 6.00 / 8.00 - at work during day, can't get to coffee shop - proposal re time-limit - contentious.

Duty to seek consensus - Min Code. Difficult days - decision we can all support.

Increase support for hospitality if

4b

closed for further 2 weeks.

Acknowledge stories we have heard

DOF Understand view - if we add money, will complicate scheme, make harder to pay - do another means of support.

Fm Engage with hospitality - advise of higher support by different means.

DRE Poss to do more within hosp grant
- change system, add complexity.
Can do work in level of grant.
Continuous work - COVID
security / safety - give additional funding.
Use local council officials to monitor compliance.

DST Proposal - coffee shops
- off licensed close at 8.00pm
coffee shops / cafes - also close at 8.00pm.
Off sales - 8.00pm - same across the board.
Only essential travel - but hotels OK for business / essential travel.
Use Scottish coffee shop description
- snacks etc - to only for

coffee shops, not restaurants.

dFM ROI - value of meals - €9.
Prefer to close all for 2 weeks.
(DE - yoghurt!)

DE 8.00 pm - sensible cut-off point.
6.00 pm - too lenient.
8.00 pm - creates differentiation with
night time economy, align with off-
sales.

Definition - issue if we try to
differentiate - better to focus on
alcohol/no alcohol. Messaging -
allow café to open - impact on
town centre ~~exist~~.

All within context of amendment to
R Oct Regs.

Good avenue - Safe Opening Grp
- can put measures in place for
27th.

Reasonable level of compromise.

DFT 1st Q we will be asked - impact on
R?

I

D - list of Qs.

Cafés - close at 8.00 pm - will
impact on level of customers -
compensation.

lot of unwanted Qs.

dFM DPH - issue in Donegal - two
pints, get meal

If can arrive at position, C 7
Seems to be concensual.

Messaging - behavioural change
OK

Compliance / COVID ambassadors -
Qs / OK

Close contact / driving instructors /
appts - OK?

DOH concern - can't guarantee
we will not be back here before
Xmas.

Continued increase in inpatients
X Deep concern - knock-on effect
on health service.

Going against recomm of CMO +
CSA.

DOF Alternative - no agree^m
- all reg's fall on Thurs.
Only premise I am exploring
- trying to protect as much
DOH advice as poss

DPI X Asked for advice & impact
No choice - asked to choose
between no reg's in place
OR some amends.

dPM Retail - remain open
- some restrictions

Hotels / restaurants closed - further 2 weeks

DHERRA DOF - more money, slower pay^m
look at businesses - bring forward
[]

Premises who choose not to open
- provide same support.

DOF Amends to pay^m - complex. But
can find ways to provide

FWI D + F - one bullet point
- Retail open, Safely Open
[grp to be established]
Hospitality licensed - 27th open
- after work with sector, local
govt

E = coffee shops.

dFWI Consensual Retail
Don't need G - hotels -
already in negs.

h -

Anomaly - needs to be fixed

Coffee shop
Close contact

DFE Coffee shops - happy with 8.00pm.

FM Starbucks - stay open later.
But 8.00pm - compromise.

dFM consensus?

DOF Financial support for those who remain closed.

FM E - open from 13 Nov
if stay closed, fin package remain in place.

dFM Close contact services.

consensus.

No-one will be happy with outcome of this evening.

But can't have no reg's in place on Fri

Agree - consensus?

DOH Only fair - CMO/CSA
- come back with modelling
Need to add input - on record.

dFM Full extension - cafes open to 8.00pm
Define cafes - tonight

Close contact.

DfT Can modelling take a/c of these
amend^{m7}?
CSA said - cd not do granularity

DfT Cd do for close contact services.

DE Definition - cafes - what is
clearest to establish? Serving
alcohol or not serving alcohol?
Soleal distinction - reflect in
regs.

~~DfT dFm~~ DfT can't draft regs - no
knowledge.

DfT Continue for next 2 weeks -
provide support if can't open.
Announce tomorrow
Same issue for close contact
services?
Treat all sectors equally.
Open/operational fine; if
not, provide support.

dFm How to write into regs? If not
open, provide support - close
contact

DfT lot of businesses - have already
taken bookings, expecting to
open.

DOS Not open, no staff, no bookings.
Sectors concerned they wd not be allowed to open.

dFm Not too far ahead of DfT request
- cafes - genuine concerns.
Public messaging
Consensus - graduated/controlled manner - open cafes in a week?
Gives time to define what is cafe/what is not.

DfE Gave suggestions in good faith.
- revisiting what was already agreed
Cafes open - close at 8.00pm.
v limited element of hospitality, drive footfall in towns, help retail
Huge amt of hospitality staying closed
Stick with what we agreed.

dFm People - don't want things to fall off cliff on Thursd pm.
X Extremely concerned re trans^m rate of virus, health care staff - exhausted, grateful to them.
But economy impacted.
Don't want health reg to fall, v concerned. Trying to achieve balance.
Cafes - small element of concern

CMO Difficult issues.
 Point out - closest to para 16
 5 Nov - medium scenario.
 (Un)Probable - P below 1.
 Obligated to come to exec - mid-Dec - excess mortality result.
 Dilemma, difficult choices.

CSA Enormously difficult
 Balance - impact on HSC system
 v impact on society / economy.
 More likely than not - remain
 more restrictions before Xmas.
 Behaviours
 Restrictions prob required before
 end of year.
 Safe opening grp - opening of
 hosp. sector cannot be safe.
 Cd lead to R+ - don't
 want message to sector, is
 safe to open.

Fm CMO/CSA - factor in schools
 close before Xmas - contribute
 to R.
 Closing most hospitality for
 next 2 weeks
 Coffee shops open
 Impact - schools closing?
 Hospitality

CSA Will be in better position to

assess schools impact in about 10 days.

Schools close - 17th Dec -

10 days to impact on hosp admissions.

Will advise on impact on weekly basis.

R - relatively close to I, open hospitality - impact.

Don't want to be bleak

Prob need restr before Xmas,

- depend on mitigations.

DAERA Vaccination - CMV - available before Xmas.

BSC - not available until March?

CMV Haven't seen full data.

Not assessed by regulator - lot of steps before vaccine approval.

Prevents symptoms - don't know if it prevents onward transmission.

Process to be expedited - not short cuts.

40m doses for UK - 2 doses per person - Barnett share of vaccine

x Paper for exec.

Packs of 970 vials, storage restrictions.

Care homes, can't go to mass vaccine site.

UK Govt - access to 6 supplies.
 Spring - Pfizer vaccine
 Next winter, & different to this
 winter.

DfT Behaviour - cafés - only own
 household, max 6, 2 households
 - need to clarify.

0 PM My preference - 6/2.

1PM Huge stuff.
 Adjourn - officials to write -
 reconvene in half-hour.

DfT Clear advice from health
 professionals - will be included
 in paper / written proposals.
 Ref to mortality -
 impact on families etc - Xmas.
 Protect Xmas - hugely
 important.

1PM Difficult for everyone -
 shd have just gone with DfT
 paper - voted down.
 Consensus

Every one of us has heavy lifting
 to do, all work together.

DfT PM / DfP - saying if paper not
 agreed, back to no restrictions.

(5b)

Pm

Back to position 16 Oct.

Accept CSA opinion - saying he cannot aggregate [C I].

Ref to behaviours - for every win to promote good behaviours, DFE - economic paper.

Impact - people going to ban shark.

Not binary choice.

Have written down by officials
- Then review.

dPM

Incl DFT / CMO/CSA concerns.

No guaranteed

factor in modelling.

Keep situation under review -
can factor in change.

DH

A + B - DFE paper.

Points 13, 14 - paper on 16th.

Increase [police] on ground

- ROI, guards stopping people
councils

NAERA

Need better enforce^m - exec to
ask councils to hire people
to enforce - wd help with
behaviours.

DOJ

Enforce^m - need to bring
people with us, community
involve^m. PSNI can't demand

to know where people are going -
not in regs, just guidance.

ROI - SK limit.

We can introduce - but different
backpack - family support impact.
Behaviour change - mask.

S/market health

If enforce, will lose people.

DOH - [fine] - printing?

PSNI issue - printing of higher
fines - still lower fine in place
normally reg - slower time.

Only place which prints - in Wales
exclusive contract. Can't be done
elsewhere - trying to expedite.

Completion nightmare.

Need police to have fixed penalty
notice.

Spoke to Chief Constable -
exclusivity in contracts.

✓ 8.15 dPM Adfonen - recommend at 8.15.

✓ 10.00 dPM Adfonen to put paper together
following discussion

CMO comment - no matter what
we do - will lead to excess
deaths.

As Govt Minister - cause of
excess deaths - cannot be
unstated.

DOF Went to reflect
 Proposition DDT - not agreed
 cross-comm vote.
 No agree " - Regs fall Thurs
 night.
 Discussed v thoroughly.
 Sought advice CMO/CSA
 - unequivocal, duty to reflect.
 No doubt re clarity of advice.
 Strong reason to pause
 + consider.

DOF. Ultimately - all picked up on
 remark.
 Understand - pandemic
 Understand - political challenge
 Need advice
 Proposals - compromise - to
 minimize impacts.
 Need advice on likely differ-
 ence between compromise +
 no compromise.
 DDT paper gone off table -
 vote.
 Revised restriction v no
 restrictions.
 Want clarity - which road we
 go down.

aFM CMO back on Zoom
 DDT paper blocked, tried
 for compromise situation -

you advised excess deaths
- need clarity.

CMS No of lives save - worst scenario
no restrictions except No 2 - ie
relax all current restrictions.
Close contact $R = 1.9$, shortly
will go above 1, increased
transmission.

Info previously given to exec
Close contact \Rightarrow will add 0.5
- also hospitality.

R above 1, increase hospital
admissions, CH, deaths

Excess deaths - depends on
decisions of exec this evening.

Highly improbable - get to
Xmas without further intervention
- run W&D-only service, no
other services. Will still see
excess deaths - COVID, + other
deaths because no service.

Paper - 5 Nov - graphs.

Can't provide certainty -
modelling, not predictions.

Assumptions - 300 / 800

Outbreaks in care homes.

Depends on decisions re restrictions
- proposals earlier better than
no restrictions - but will have to
come back in a few weeks.

CSA

Recognize - restrictions - economic difficulties - deaths in longer term - not as visible, but equally bad.

CMS + G acknowledge balancing act.

Anything which increases R / transmission, will lead to increase in deaths in short term.

dFM

V challenging.

Middle ground / consensus position will lead to excess deaths.

Don't think - can't move forward with proposals earlier. No matter which way we go - difficult

PM

Have known for days - going around in circles.

Proposals in place - or no restrictions.

DFI

Choice - 2 sets of 7 nos of people who will die.

Financial support - 2 weeks

Citizens will die - if don't support, more citizens will die.

dFM CMW - if we proceed as proposed earlier, excess deaths now.

DAERA People dying - not proper GP services, mammograms, shambles - friend with cancer, young people dying.

Domestic abuse ripe - lockdown, people taking own lives.

Excess deaths - locking people in - decline in older people.

All real issues - not economic.
More we suppress population, more damage we are doing.

dFM Don't disagree
Being asked for 2 weeks grace
- v difficult.

DAERA Making life hell.

DE No good routes.

Take DAERA point on board.

Quality of life - destruction of mental health, deterioration - elderly people.

Any action we take will lead to lives being lost

Be clear - what proposals on table - v modest changes, but big impact on quality of life - nothing in DFE proposal

(62)

that is different to other jurisdictions.

I would more lockdown - won't solve problems.

Will still kill - whether through poverty or COVID.

Nobody has got what they want

- DFL paper - least worst

- need to move ahead,

but not perfect.

DOJ. Going in circles.

None of this are doing this to people - we did not pick to have a pandemic.

Worst - health service already under pressure, COVID just made worse.

Protect lives, protect livelihoods - we £ billion DFL mentioned.

£ billion won't compensate for avoid deaths.

All horrible choices

Not party political - but DFL took health paper off table.

Go with compromise paper - or do nothing.

Significant people will die

- compromise - only paper on table

No getting away from fact - taking DOH paper off table

CMO says 150 deaths - for cafes + hairdressers.

If no-one wants to go back + reconsider decision taken earlier - we rather agree - 2 weeks.

One no other options - if can't agree 2 weeks, agree compromise - can't go back to no regs in place on Thurs midnight.

DOF
PM request - put question.
Time to reconsider 1st decision (DOH paper rejected).
Tried to find unified approach - stark advice
Suggest - reconsider DOH paper.

PM
Decision will be same tomorrow
- DOH comment - 150 lives / hairdressers + coffee shops,
Want to see hard evidence.

DOF
Go ahead + take decision

PM
Want hard evidence - 150 lives / opening coffee shops

DOH
Modelling

bl

CSA

Different laptop - don't have legs.

Any change in R - result in cases / deaths.

Hard to assess nos

Nos depend on Exec decisions

Higher admissions etc - depends on R - R over 1, more cases, R below 1, less cases.

I've heard colleagues say

- gatherings at Xmas - increase in deaths. Reality of epidemic - not anyone's fault.

No matter what decision, people will die from pandemic.

Relaxations - increase in deaths

- short term, more visible.

Economic damage - deaths, not as visible.

Modelling inexact

Not good to focus on 150

No one should feel responsible for deaths - consequence of virus.

If increase following 'late^m', will be back earlier looking for increased restrictions.

CMD

Modelling based on assumption - range of poss deaths.

Impact of Exec interventions
Consequence - R

Impossible choices - weighing up short term COVID results v economic issues (longer term).

Extremely difficult decisions.

Sooner rather than later - will have to come back to exec.

Can't keep R below 1

DFE

Conversation - v distressing.

Almost blaming each other - deaths caused by virus. CSA clarifications.

In 2 weeks, same position?

Same decision, same assumptions - no decision set in stone, course can be rectified.

CSA

Likelihood of getting beyond Xmas.

DFE

Open up hairdressing + cause 150 deaths - in 2 weeks, same choice.

Exec has lost run of itself.

People - v heartfelt - Not looking at new choice in 2 weeks - same choice.

But in 2 weeks - wd get us beyond Xmas.

Draw back from laying blame.

Nothing easy

Choice will be same in 2 weeks.

People in Derby - said 14 weeks, extended.

Thought we had reached consensus
Info from CMO + CSA on Mon +
Tues - same choice in 2 weeks.

Can't live in COVID coma,
No safe opening for hospitality -
never open again?

Content - vast majority of
restrictions staying. But
shd try to move forward
- beyond emotion, make same
decision in 2 weeks.

CMO Further 2 weeks - may mean no
further restrictions before Xmas
- Full view - schools closed - but
festivities - gatherings.

DH Not trivializing sectors of
economy - a bit rich.
I'm not the one digging in,
making life difficult.
Accepted politically - DH
blocked.

Tried to find way forward.
A knew hairdresser - afraid to
go to work.

Not blaming anyone at exec on
deaths - just asking to
consider whether choices /
decisions are right. Not clear

if we will be in same position in 2 weeks. Schools closed at Xmas.

If we say - willing to take risk, recognize we are taking risk.

I don't live in bubble.

I have tried to get agree^{ment}

Stark - compromise causing excess deaths.

Cafes/ restaurants - 150 deaths.

Given what we have heard, makes decision harder - better to go with compromise. No appetite for some - Doh paper.

In favour of Doh paper - gone

In favour of revisiting - gone
favour compromise.

Why always go to the wife.

At this stage, make decision this evening.

x Not happy - process of decision-making fundamentally flawed - cross-community blocks.

Dof talked to doath.

Opinions all valid.

2 pieces of advice - v clear.

Put proposals

Come back tomorrow

dpm DSE - proposal?

b2

DFE Happy to put proposal.

dFM Proposal from DFE

Fm FOR

DOH No papers in front of us -
must ifies me - why doing now
Trust - no restrictions at all

dFM Need to go through process.
I have tried.
DFE point - not us, view
No good outcome
Difficult decisions, all bad
outcomes
Have to continue process.

DOH Exec will be left - no go fall on
Thursday night.

dFM You have told us we can't
proceed - excess deaths.

DOH Cd end up on Thurs with no
legs

DFM You + CMO have told us very
strongly - compromise n accept

DOF You have given us clear advice
re DFE proposals

I am acting on your advice.

Only proposal is DFE

CWG / CSA gave advice

I am clear - if nothing happens now,
no rego in place on Thurs.

DfE One advice - verbal communication,
voting - no paper.
My paper clear.

DE Comparison
AQ today
Pupil attendance this week compared
to pre-Halloween
Remote teaching 5.8%, now 2.8%

DFE Broke up for proposals to be
typed by TEO - where are they?

dPM Came back to meeting to consider.

Fm Win Code - try to seek consensus
Retreating from consensus.
Theatrical.
Clearly not doing that.

dPM Have spent 2 days trying to
find consensus
DfE feel they are being pushed
around.
Trying to find consensus
dTH - clear, can't accept

20

FM Transcript from San Politics Show.
dfm

dPM said - is there anyway we can move
Asked CMO/CSA for advice.
CMO/CSA - no matter what we do
will lead to excess deaths.

DPE CSA agreed - same decision in
2 weeks.

DE Procedural issue
Dott - no text in front of us.
DPS - propositions, amended
during discussion.

Circulate document, allow us
to know what we are voting
on.

dfm OK - will get DPE proposals
circulated.

X 11.07 Rejouen to 11.15

X 12.10 am 11-11-20 Rejouen

(MH) FML missing

FM Driving home - no vote, go ahead.

dPM DPE proposals
DPS - drafting errors
Coffee Shop - 8.00pm
n. h. c. in m. a. ch. n. e.

DOF had proposed

DFE - content these are the proposals we discussed earlier

DFE Proposals discussed + amended by GKE - content.

DOS Thank DFE + officials.

Clear we will not get consensus.

No indication - sufficient consensus.

No point - 2nd division in GEC

Rather than vote, no agree["]

Try to find accommodation
+ come back tomorrow

More divisions - posturing, who said what.

Thus - no negs in place.

Need to get to place - some negs

Propose - adjourn

Meet tomorrow @ 9.00 AM.

Utterly destructive to GEC, + to reputation of GEC.

Appeal to everyone, all depts,
all mins, to find accommodation.

Worst thing we can do - send out conflicting messages.

Increasingly divisive votes.

Park now, no further votes.

Give proposals to DGH - assess["]

V No 2 negs

Cleaner start tomorrow.

DOF Already have assess^m - won't change by tomorrow a.m.
 Clear advice - detrimental to health. Won't change.
 Not good position - we are not agreeing.

DOJ Compared with [I]
 DOT proposals - still some death
 Not talking - compared to DOT paper, but compared to No 2 Regs.

Need position - better than no additional restrictions.

All we are doing is digging bigger hole - will be fighting in public - people won't take us seriously - people will have lost confidence in us.

I have not heard of comparison - No 2 Regs / DPE proposals

Need in writing.

Matter of life + death.

Want written assess^m of 2 proposals.

Come back in the morning
 Unwise - deliberately head-to-head confrontation.

Hope people willing to reflect - come back with different attitude.

DOF Health advice won't change.
Shd have all options on table

DOF Fine with that.

DFM DFE proposals
Clarifications

DOTT Going to vote + then coming back
in the morning?

DOS Why proposal - don't vote now,
come back in the morning.

DOF Same health advice
CMO/CSA clear
Wd like to reconvene + consider
other proposal.

DOS People digging in.
Step back, consider open, clarity
on issues.

Gobble-de-gook proposals.

Unwise course of action.

Get into another day now.

If convinced it will fall tonight,
will have to come back again
anyway.

DPE Second DOS proposal - reflect on
DPE paper overnight.

210

DFM Won't change overnight.

DSP Proposal - no votes tonight,
come back - all proposals back
on table.

DFM Only adjourning meeting.
- DPE paper tomorrow

DSP All options shd be on table.
Want my proposal taken -
try to get consensus.
Now in another day.
Step back from brink, more
divided we will become.
Make decision on my proposal.

DPE DPE seconding - all options on
table.

DPE Already decided on DSH
proposal - can a defeated
proposal come back? Maybe
an amended DSH proposal?
Why DFM being?
Put my paper in good faith.
Happy with DSP proposal.

DFM Ignore your comment. Have been
trying to achieve consensus.
Adjourn - meet at 10.30

Fm N/A - 11.00
DFI N/A - 11.00

DOF Meet at 9.00 AM - propose?

DOF Expect officials to prepare papers before 9.00 AM?

Events on - later meeting.
Snapping f nose off me.

DOH. Supporting C I.

DFM Just avoiding what we need to do.
Meet at 12.30 pm tomorrow.

~~X~~ Adjourned 12.30 am

11-11-20 Reconvene 1.15 pm.

DFM Long, few days
last night
DPE proposal - adjourned during
vote.

DOH paper this a.m.
- DOH to introduce.

DOH last night - like to see paper,
black/white.
Contributions from CMO/CSA -
written format.

Narrative around paper.
Practical outworkings - Points 4+5.
Regulations - can become
complicated - challenging to put
decisions into regs by Thurs pm.

DOF

TKS for paper

I sent letter this am - revisit
original proposition.

This paper supersedes.

Not good media coverage for
anyone.

Need clarity, certainty.

Quick reading

- push up pipe for another
week- extend restrictions for one
week- DPH agree - restric. will fall
in one week

- certainty re this proposal

Need clarity

Hard to find agree^m - lack of
clarity/decisionmaking.

Additional points - ful.

Promote community compliance,

Track / Trace

If no improve^m elsewhere will
have no option but restrictionsPaper saying - extend for week,
but then end

Always caveat -

Additional measures required.

DPH

Can't give certainty - balance
between health + society.Original approach - need
extension. But - need to

compromise

Can't have 'do nothing' approach

Para / Pt. 5 - gives us a window

Put change into regulations - will be challenging,

Extend everything for one week

- where we were last night - make reward as a collective.

And CMIO + CSA advice from last night.

DOF Creating space to come back to same debate next week - or looking at new mitigations / measures?

DOH Q for everyone else to answer.
Will prefer 2 weeks, but better this approach than everything falling tomorrow night.

DOH Tks to DOH, CMIO + CSA for paper.

Agree with basis of paper.

Hospitality have indicated - can't open this up, no roll over for a week.

But make decision now on what we do next Thurs - do not leave to last minute.

Encourage more compliance/adherence

- need more coherent approach.

And community sector - Derry approach.

I sent letter - looked at detail of negs - amt of things that will fall if negs fall on Thursday - reck less.

Roll forward for 1 week, but work to prepare in the meantime.
Happy to support.

JMK

Reconm from DfT.

Not a resolution, but a way to move on. Not on cliff edge tomorrow night.

Concern - DfT letter V modelling paper - 2 weeks necessary.

Same situation as Oct - advised 4 weeks, but changed to schools 2 weeks.

Concern - now have a week - not enough time for benefits of 2 weeks recommended.

Industry will ask - what does this mean for next week

Need to begin discussions now, not wait to next week.

Procedural / practical mechanism - CCG.

Best mechanism for delivery - para 5.

H - de-risk limited reopening of hospitality.

Need more direct engage w - DfT / Hospitality sector - to establish

What measures shd be put in place.

DoH Hospitality []

FW TKS DoH

Not a compromise - continuing to restrict lives + livelihoods.

Mitigations

DfE - paper of 15 Oct - took policy decision

Now moving away - breaking trust with citizens / voters.

Does not move it on

DfE paper - compromise

Told people - 4 weeks, now extending one week, poss will say 2 weeks.

Some issues in paper cd be taken forward but not in time.

Look at DfE paper as compromise on compromise + let us move forward.

DAERA DoH paper kicks can down the road

- keep restr for extra week, then review - won't fly.

Pressures on hospitals - ICU, emergency depts.

Laughable - Tom Black.

Emergency depts over-loaded because GPs won't treat.

NI GPs contributing to fics in emergency depts.

(3)

- x DOH shd address issue + let me know what is happening.
- GP's missing health issues - can't diagnose by phone.

DOH

GPs - private contractors.

RNIA committee - in creating & time for visits - increase GP capacity.

Covid advice - don't visit GPs.

Pressure - increase training - takes time.

DIAERIA

DOH - warned on 2nd wave - prep. shd have been in place.

GPs - private contractors. You are asking business to close down because 'private' GPs not doing their job.

Unacceptable situation.

DOH paper - no basis for anything further than last night.

Shd have talked re compromise over wfe.

Only compromise = DFE paper.

DFE

TRS for paper

Spirit of compromise - but incomprehensible - not take decision today, but kick can down the road.

Situation col be same in a week.

(2)

14 week restrictions.

lot of meetings across sectors etc
- but no outcomes.

Kick down road for a week - wd be slaughtered.

Fundamental issues with paper

- SA - addition measures to derisk
limited opening of hospitality -
- what wd be signing up to?

DOH + CMS don't believe hosp industry
can open safely - what do we say
to hospitality industry people -
65000 jobs.

Everyone responsible - don't
believe you can open safely,
limited opening. Fundamental
problem for exec.

Employment

Astounded - put in paper -
limited reopening after
promise they cd reopen on Fri.

I couldn't sell this to sector.

Workers - part-time, lower pay.

An attempt at moving - but
better to look at my paper.

DPI

FM - important when you give
your word - but said 14 weeks +
wd keep under review.

DOH - 2 weeks extension, now 1
week extension.

Don't know impact of schools.

(B)

We are being told - further restrictions in mid-Dec - close down again.

Hosp sector saying - content with 2 weeks with support

Oct - were told 6 weeks was needed, political decision - 4 weeks.

Threat - if don't agree compromise; will move to 1620 days - current regs will fall - huge ramifications.

DE

Elements of paper useful - but balance not acceptable.

Covers blanket - everything to be rolled over.

Hospitality

Close contact - all will roll over for a week.

lot of businesses covered - footfall caused by close of hosp impacting on them.

Another week - whether we can put in measures for safe openings - no certainty.

Behavioural shift if we do not keep our promises

People will conclude - no intention to lift restrc - why bother to comply.

Schools - self-isolating / COVID -

Children F I.

Model what is happening

Time lag - most successful -

Derry City/Strabane - influenced by measures - level 2.

lose trust if we kick can down the road

Impact on livelihoods, also lives.

Additional deaths, lives ruined - lockdown.

Community grp visit this a.m. - difficult-to-reach young people.

Paramilitaries

Retention will kill people in the long run.

Delay of a week - unacceptable

DPE paper - realistic compromise.

DOS. Agree DFI.

Qs - how many daily cases + deaths in NI - comparable with England, Wales, Scotland,

ROI?

Roll out for extra week - not kicking can down the road.

Impossible to draft new regs by Thurs - operating with no regs.

Practically - no difference to hospital - ality - not prepared, wd like financial support.

I am not suggesting we don't discuss to next week.

(35)

Want to agree now, + immediately discuss next week.

Fml - give word, want to stick to it.

Find line between sticking to your word + being inflexible
Tree / wind - bend.

Not making decisions for right reasons

Caveat - circumstances change. O

Businesses / people angry -

not one fault. Disease to blame.
Closing business - damage.

Not closing business - also brings damage.

Angry, frustrated

Bigger footfall - more people,
more mixing, more transmission
Health advice clear.

Want people back into work. O

Not in position to ease regs -
people in hospital etc.

Gave word - can't change.

If we go with your commitm -
we will need to lock down in
few weeks.

Are we going to ignore medical
advice?

Appeal to reason - better to do
now than in Dec.

Roll forward for a week, then
discuss immediately on what to
do.

Gave word - but circumstances change.

Not in position to let people back to work etc.

Fm Non-aggressive response.

I have been flexible. I said all wd open up on Fri - now looking at some opening - contact ~~the~~ services, hospitality.

I am not being inflexible.

AOY I didn't say you were being inflexible

Fm If I was inflexible, I wd say - let reg's fall.

^{no warning} Big deal - things have changed
Behavioral change. People have to trust us.

July - people stopped social distancing.

Consequences - behaviours.

'What if' something happens - not evidence based.

If reg's fall, don't go back to March situation, go back to

- nightclubs closed

- food/drink curfew 10.30

- max - private gardens, house holds

- funerals

we will have reg's in place.

87

Don't accept - can lift regs because
can't do in time.
Can't say to people
Not getting of all regs - amending
- can do in less than 2 days.
Compromise paper from DFE.
Not where I want to be - if
people want to vote down, their
decision.

at 8.55
DFE

Trust really important
Have in black/white -
back around table - looking for
new restrictions - trust will be
gone.

Do H

TKS for acknowledging compromise
- still see need for 2 weeks.
Nos in hospitals not falling.
Point (a?) - graduated control
(DFE initial paper, not in revised
paper). Do away with some
risks.

A tabled paper - hope - not to
kick can down the road. Genuine
concern - current trajectory.
Want some breathing space.
Running to wire.

Last year - nurses on strike

- asking them to [redacted].

Better to take 2 weeks now or

come back in few weeks + ask for restrictions then.

DSP asked for figs - don't have at the moment.

DFE I referred to gradual reopening
 - coffee shops 13th, rest on 27th.
 SA does not address this.
 "Limited reopening of hsp sector"
 - what does this mean? Not same as my proposal.
 Can't keep hsp sector closed forever - 65000 jobs at stake.

DPW Here we are again.
 Not easy.

DH - Rework - not what he wants, try to find way forward
 - some exec colleagues don't agree.

No guarantees in pandemic - policy objective, move away from circuit breaker, do more track/trace etc.

DOF Q - what does DH paper mean - clarity?

Something wrong if we can't give clarity by end of week.

What we have here is attempt to find consensus, buy time to get house in order.

2 proposals on table
 started with DFE last night.

scr

DE

DFT paper - if vote, will be
cross-community,

DFM

DPE paper - vote.

DOJ

Voting on DPE paper.

CROSS-COMM block to DFT.

FML - willing to consider -
delay coffee-shops to next
week, move forward with
close contact.

If we lose Ross - significant
issue for well-being.

FML

~~DFT~~ Suggesting - coffee shops open
Mon, rest of week 27th, close
contact at wife?

Adjourn ["] to consider.

DFT

If adjourn - need advice from
DFT/CMS/CSA on DOJ proposal

DFT

couldn't do granular advice
- close Fri or Mon?

[DPE] - raise concern pr
me

DPE

licensed premises - with all
existing caveats.

In 10 days in between, work
with Council - checks etc.

(90)

Impossible to say to workers - can't work.

All caveats as at present.

dFm DfH - can't do grammatical advice frei/won.

Fm Were told a week col make a difference, but coffee shops won't make difference - which is it?

DfH DfS proposal - more cafes frei to won - policy decision.

dFm Still want adjourn?

X 2.30 Adjourn

X 3.30 Reconvene

dFm Fm asked for time to reflect.
DfH - considered what was put forward

DE Sequencing
Talked with DfH
- take in order -DFE
- DfH.
- any further issue

DfS I intend to bring further proposal.

(a)

dPM

NY Classify - proposals from original
paper last night - DSI amend
Read out review:

Except 1-4 - 27th

13 Nov Close contact

licensed premises open 27th

Grp 6/2

Grp to be established

Cafes / Coffee Shops - 13th

6/2 no R/P/R

Pubs/bars - sealed off sale

13 Nov.

dPM DFE content with that?

DFE yes?

DOS Proposal

listened to discussion

People want to be clear - no more uncertainty.

Concerned - DfT kicking can down the road.

- Roll over Regs 1 week as per DfT
- Phased re-opening from next Fri (as DfE paper)
- Financial support (DfE)
- DfT - community support / adherence etc.

Gives us package - degree of certainty - tell people what will happen

2 week breathing space.

If let rest of Regs go to wall - wd be reckless

If don't agree

- all hosp will open Fri
- all sport open Fri
- universities - no distance learning
- gym classes
- large wedding
- no household bubbles
- close work from home message

Will lose all of above if Regs fall.

Look, try to find way.

(All)

Poker game - who blinks first.
Step back from brink.
All agree - do we shd not happen
on Fri
Buy ourselves breathing space
People will be completely unprotected

DPS TKS - reading out pos.
Clearly demonstrated - how large
X compromise was - v limited change
we were seeking.
X Offer congrats - Jane McCormack
+ Tracy Blagoe - live-tweeting
this meeting.

DE DDF - send proposal in writing.
Close services - allowable Fri
next week?
When coffee shops open?

DDF Same date
Next Fri.

DOF Not poker, Russian roulette.
Valid opinions.
Proposition from DDF - submit
for DOF advice
least worst impact.
Everything has risks.

dFM Only way we can proceed.
DOF write up proposal,
mid to advise

AS

Extremely challenging, ✓ difficult
Public deserves - we find way
forward.

DOF Will write now, circulate to
see colleagues incl DOH
DOH to advise what time we
reconvene.

DOH Can't put timeline on it.
look in context of own paper
this a.m.

DFI Not analysing evidence.
DfS - amalgamation of proposals
DUP - facing going back to
No 2 Regs.

PW No desire to move forward
together.
We put forward compromise
- Exec did not agree.

DFI DUP blocked all proposals
- put lives of citizens in
danger.

PW 2.12 - Exec to reach
consensus; vote - guidelines
⇒ ministerial Code / NI Act
Point out - where have we
breached?
Move on without DUP. People

put me in office to protect.
Only covid deaths matter to SDLP.
All deaths matter to me.

DFI Mid December - hospitals over-run
- will they take comfort from DUP
position?

DIAERA GPs - role.

DOF. Adjourn now - or will do
damage to working relationships.
Not helpful discourse.
Will write paper, send to DfH.

DfH Will take 1 hr from receipt.

X atm ~~4pm~~
Adjourn to 5.15pm

Reconvene 6.55

DFM 2 papers circulated
DfH paper.

DfH Asked to provide update on
DOF paper / proposals
- update on Annex H -
highlighted in yellow
Our pref - 2-week extension.

CWQ General comments.
Pages 4 + 8

AT

DoT proposals - option (d) -
relate to middle projection - fig
CSA - potential impact from now
to 20 Nov, then 27 Nov.

CSA

Hopefully reasonably clear.
Minor changes to issues already
discussed.

Uncertainty re predictions -
overlap, no distinct line for
each

R - rising for 2 weeks of restr.
at the moment, don't know
next week - impact of schools.

X Next week - col provide updated
modelling based on real-time
data.

Fm

dPM + I had good engage w/
other DAs + Wfcare - inst
testing Liverpool.

Lateral flow testing

Prep for testing
- Qs to DfT.

Engaging conversation - testing
can make difference.

Learning

Qn] How can this feed into our
CSA stc over next few days?

Torrid time - need good
news for people.

Testing - ramping up downan

QX

Resource.

Need exit str, move away from
despair

Testing, vaccination str - hopeful

DH Part of mass testing consortium.

Hoped to have paper for exec
tomorrow - may not be ready.

Liverpool - positive experience.

Use for student corridors.

Vaccination - cell working in dept
looking at 4 nations approach

- Racine approach - almost
300,000.

Flu vaccination prog - 1 Oct - end
Dec 650,000 vaccinations.

Ordered for this year pre adults,
ordered additional - used 650,000
in 6 days. Mass vaccination
Prog - cd apply to COVID - good
footprint.

GPs hire community halls,
underground car parks.

FM

Trying to find way forward,
positive

Make visible to public - so they
know direction of travel.

Mass testing - care homes, NHS,
meat factories, hospitality.

Contextualize discussions - send
strong signal - that's where we

(a)

are going.

Way of trying to solve some issues.

DH Sometimes get caught in negative approach - asked during Q&A yesterday - not listening!

CMO We will wade through, will come out other side.

Difficult few months ahead - we will have mass testing over next few weeks / months.

QUB - lamp technology.

Other sectors at risk

Testing twice weekly - effective.

Test asymptomatic people.

Tests being validated. - lateral flow tests - bit like pregnancy tests.

Being purchased at significant scale.

X Exec paper for tomorrow - mass testing.

Vaccine - will start before Xmas

Have been planning for months

- not in public domain.

X Paper for Tues - high level.

FW "Make problem bigger"

Contextualize

If we cd have info - Liverpool, mass testing etc.

Narrative as important as tonight's decision.

dFlu - Agree - concept of finding cases -
Now test - reduce transmission 50%
Mass testing - look forward to
getting more detail.

Do's

Fmt comments.

D iff re decision - binary view R.
Had to see exit strategy -
from series of restrictions to more
open

Fear - if can't say after 4 weeks
- OK, people will say 'when' -
don't know.

Key thing - show work being done
re exit str.

People questioning our ability to
manage.

Test / trace - v fast test this
week.

Flu vaccine - I get every year.

This year - v efficient - went to
Church Hall, - vaccinated all
patients in 2 days.

Mechanisms - We can talk about.

Need to make people aware - not
just circling drain - endless
restrictions.

Speak re preparatory work for
exit / progress - offers people

sense that this will end.

Emotional strain

Scope for way forward - frame decision in terms of going forward.

DOF Encouraging - bigger picture.
Differences - but we all want an exit str.

Direction we can buy into - not all focus on restrictions.

DOF Propose earlier - 1 week extension.

DOF - elements of that.

CMS/CSA view on that.

BOTT - said it was bridge.

BOTT proposal, DOF elements.

Give people hope.

Differences - cafes next week (DOF)

How do BOTT/DOF view?

Could we commit to this? live with this?

Don't know other people's views.

Sense of finding way through, proposition to society?

BOTT/CMS/CSA - views?

CMS Apologise - can't provide certainty
- advice re pass impact on transmission.

Try to provide best advice within range of uncertainty.

[Para 10] - but mins must take account of economy, society etc - political decisions.

Decisions are for minister - provide best advice

Whatever decisions mins make, likely we will need to seek more restrictions if COVID rises.

○ CSA Our views in paper - highlighted in yellow - monitor, keep exec informed, if transmission rising - will highlight to exec - bring proposals if DOH requires us to.

○ DOH Prefer extension - 2 weeks/1 week
DOE proposal - better than Regs falling completely

○ DDF DOH always clear - no certainty - even if 1 shut down, may need further restrictions.
Can live with DOE proposal - know you won't prefer extension but DOE proposal better than Regs falling.

○ DFE listened with interest.
Spoke to DOE - wording of proposal - no certainty for hospitality industry re 27th.
Letter from hotels in Derby -

restricted for 6 weeks.

Concern - wd have to have same conversation next week.

No certainty for cafes / coffee shops
- wd like to open next week.

Consider proposal

- close contact incl driving

16 Nov

- Cafes / coffee shops 18 Nov

- Licensed hotels 27 Nov

Have to tell them today when they can open.

DOF

Wd love to give certainty to businesses - we get no certainty from DfT - CIVID behaviour of firms unpredictable.

Walk into same argue^m - give caveat, keep assessing.

Can't find certainty

Can't guarantee certainty.

JMK

We can do whatever we want - focus on approach based on additional financial support.

Mass testing

Vaccine - before Xmas for some.
Take on board as much health advice + modelling.

But unpredictable situation.

We can go with week, 10 days.

Lesson for all of us - not

'clairvoyant, can't see ahead.

In crafting approach - don't give guarantees we can't deliver.

Clear what we want to deliver

- Reopening, no restriction - eyes open reality

Should lift restrictions, reopen - but if need another intervention, be clear with public.

Meeting this afternoon - mall testing - encouraging.

Can't surrender option to have intervention.

PM

JMK said "No Surrender" for virus!

DE

Look at other jurisdictions - make sure we are not 'on our own alone'. Need to pull package together.

DfE suggestion

Circumstances can overtake - always keep under review.

Give hotels a date - or people will throw in towel.

Dancing on head of pin.

Issues raised - hospitality.

Granularity - hospitality, level of exception - takeaways, collection

DfE dates - small shift.

Biggest elements - night time economy - not in proposal;

alcohol issues

Open cafes etc - 18th.

Get wife out of way - move on
16th.

Putting jigsaw together - getting
there.

DFI losing track

DOJ paper

DPE amends, DE amends

- night time economy

DE my amends - same as DPE.

2 biggest threats - night-time
economy - not included, & open
inhibition - alcohol.

DFI DPE - put something on paper -
altered dates

DFM DPE won't be supporting
- will you put as formal
proposal.

DPE Can do - or cd vote on DOJ
proposal.

Vote on DOJ proposal first.

DOJ Vote on amend^m first?

DAERA difficult couple of days.

Feel that we engaged with

public as we went into lockdown

To keep asking for more - not as honest as we shall be,

DfE / DFE - compromise.

Clarity on what we are agreeing
- let everyone know what is happening

DfE / DFE - find form of words to give clarity.

dFm

Always fall down - clarity.

lot of factors, can't be exact -

most certainly - 2 week rollover

All have different emphasis -
all trying to get through pandemic.

Difficult no of days.

Consensus - DfE paper

(Fm says No)

Will be voted down - (Fm says yes).

DfE.

Compromise proposal.

2 areas - current regs roll over, contact services etc.

28th Nov

Adherence working grp

Derisking.

Lack of info - where is hospitality going - can hospitality + health co-exist.

If we said "with a view to opening hosp on [date]" - subjec

To advise next week

Take risk out of reopening - part of engagement/drive to reopen.

Restaurants - reopen 27 Nov.

Give people opportunity to move into Dec - schools closing - positive impact on R.

De-risking group - sustainably reopen hosp. in Dec - make clear - no guarantee.

Hospitality - struggling. We'd love to see them reopening.

But if give hard date - will be back here.

Give proper notice.

Leaving decisions too late.

Wasted 4 weeks fighting.

Need agree^{me} tonight.

Get out + repair bridges
look intensively over next

4/5 days

View to reopening - don't tie to definite date.

DAFRA

Won't cut it.

People won't accept.

Went into lockdown with good heart.

DOF - sitting on £ billion - won't give out.

Staff, furlough

Will leave industry.

Need to give certainty, clarity.

DOE We can't give certainty.
If we over-promise, can't deliver.
Unpredictable virus - will do all in
our power.

DARIA Good at promising, when locking
down - good at breaking, promised
when leaving.

2 weeks - 4 weeks - 6 weeks
1/decry - cd be 8 weeks.

December - shd be best profits.

People going to the wall.

People working - 80% can't
afford to live.

Sympathy for what you are
trying to do.

DRM Not to do re messaging.

Punch drunk.

Close meeting, come back in
the morning

Need to be all on same page
- no credibility.

Need united front.

Adjourn

Look at language

DOE Tomorrow = Thurs.
Regs end tomorrow night.
Limited time to get decision,

... all ...

Rest of rays - concern they shd not fall.

Take time to get language right, build consensus.

Another news cycle tonight -
Excr recriminations.

Tired, won't get any better.

Try for consensus this evening
- have something to say tomorrow.

Fm Moving to point - no consensus.
May have to accept

DSE - proposals, rejected by
dFm

false agenda - asking for
consensus but not agreeing.
No willingness to meet halfway.

Call it tonight

Have to live with it, take
consequences.

DSE Not just us who live with it -
people, everyone else
distressing.

dFm K Pearson - rays fall midnite
Fri, not Thurs.

DSE Still goes to work.
Can't go to restaurants etc -
own health.

Don't understand - a few 2-3 days - will we are going die on.

LMK Won't get this right - practical.
5 parties, 5 perspectives, different philosophies re health.

We have options.

Balance all this - scientific advice.
Get over political hump.

DH - want extra 2 weeks

BS - fall short of 2 weeks.

No-one putting gun to head to
see jobs lost, economic damage.
Come back tomorrow.

Give as much certainty as poss
- science won't let us.

Find pathway through -
accord with scientific reality.

Think tonight - can we do 2
weeks? If not C I.

Say same thing as each other
- can't give guarantees we
can't deliver on.

DSE Leave my paper on table - I will
speak to DSE.

Real politik

Won't get what we want

Don't vote on proposal this
evening.

DSE

last word?

(111)

DFE Happy to talk to DfE,
view situation as whole - lot of
agreement.
dFM - support position if we
bring forward?

dFM No confrontation - not about
me or SF, - Exec response in
light of CMO/CSA advice.

DoH Papers - where we want to be.
Regs fall - scares me.
Plead with colleagues to agree.
Have conversation - for sake of
hospital workers, people sick.
Have to have Regs.

dFM Exec due to meet at 11.00?
DoH meeting.

DoH Earlier rather than later.

DoS Committee tomorrow at 2.00pm.
Don't want to let down.

dFM In person meeting tomorrow?
Meeting as early as poss.

X 8.20 Adjudication.

12-11-20

4.15 Reconcile

dFM TKS for bearing with us.

Conversation all week

DOE position

Further paper from DFE.

DOE Haven't read - just arrived.

dFM Further separate proposal from
DFE - goes further than DOE.
DOE withdraw ^{an} paper?DOE Set my paper aside - discuss
DFE paper.

DFE Attempt to broker consensus -
make process forward.
Danger - people will take things
into own hands.
Look for progress - graduated way.
Reopening date contact - 20 Nov
(soft - into following week)
Close contact / dining in - 20 Nov
coffee shops - 20 Nov
(DOE proposal - extra week).
No attempt to consume alcohol
on 20 Nov premises.
Mitigation / finding - ventilation
etc.

(N3)

- Open rest of hosp 27 Nov as promised
 - Vaccination prog - set in place - good news
 - Rapid testing
- Marrick DOH paper yesterday
Hospitality - date 27 Nov
Genuine spirit - find way forward

DOH Slightly amended response from DF
TKS - compromise on compromise
Goes some way

- some 20th / some 27th
- Accept - concern re falling back
to 1 or 2 Regs
- Other conversations - Pt h
 - strengthening E I working
grp.
 - messaging - next few days.

DFI Haven't had minute to see
updated paper

- b - only cafés / coffee shops -
or others - grey area?
- g - additional financial support
- clarity
- Hospitality - What opens on
20th, also 27th

DFE V2 of doc

- Unlicensed premises - 20th.
- Sandwich / coffee - lunchtime
- BYOB - not incl purchase OR

consumption of alcohol on premises.
 X (b) Add in close at 8.00 pm (if required)

DFI (a) Additional financial support.

DFE Hosp not opening when we said - part of top-up scheme (DOF to advise?) or other scheme - extra 2 weeks closed.

Get additional support

In meantime, bewal grp - public health, ventilation in restaurants.

Overall messaging - ref to paper - Environ^m health, councils - increased messaging - safety at Christmas.

DFI Pubs selling sealed alcohol - disappeared?

DFE In original Regs.

Fm X Not in Regs - add to DFE paper.

DFI What happens 27 Nov

DFE Allows hosp to open - Xmas - busy.

Shd all take responsibility - plan for opening - local councils, environ. health, so everyone

Knows what is expected.

DFT What will happen?

DFE Hosp open - incorporating all prep work next 2 weeks, incl restrictions in place.

DFM

DFE Add in amends + reissue?

DFM Yes

DOH - political advice, not health advice

(clear advice CMO / CSA - 2 weeks
- anything less - excess deaths,
more restrictions before Xmas.)

DOH - always keep COVID under review -

Not in this paper - legal obligation to open?

Always 'expect' to open - depending on virus - this is not in paper - no right to review? Remove right to respond to behaviour of virus.

DOH

Any Regs - we can add that in
- Review of Regs. Always there

Corona - Exec approach to decision

making - always track progress of news.

DEF Previous medical advice -

DH - compromise - save this or regs fall.

I think - not binary choice - go back to original paper - 2 week extension

DH Political view - can't go back over discussion.

DPE - [] - trying to get political agreement

Half way house - my paper / DPE - reluctantly agree.

DE Capacities issues - DH, complete this discussion.

PW Said ad nauseum - people ignore.

Try for consensus.

Takes DPE for paper

Always deaths - lag.

Regs - tomorrow @ midnight.

DPE - look at DH proposals, engage with hosp sector

Tired of - CMO gave new evidence

2 days ago - not new, same advice

But Exec only wants to consider COVID excess deaths - but excess deaths from range of issues

People want consensus, or is SF going to hang tough, let flags fall

- blame game, sport

Population will be agitated

SF - looking for consensus?

I don't like paper - compromise - will SF seek ~~too~~ consensus?

DUP Range of votes blocked by DUP

- want to know we are on

right side of medical advice

- won't take lectures from

DUP

DFM SF will not use mechanism to veto - public health issue.

DOF Good engagement with DFE

Support - alterations to business
eg ventilation etc.

Cycle - open / close / open / close
Toll on wellbeing

Absence of structure for exit

- not many options

Good work to mitigate risk

People can live - prospect of road map going forward

4 / 5 weeks - trading before Xmas

Caveat - what happens after 2 weeks?

Decisions ~~are~~ 27th Nov - have to be based on evidence at that time

Happy to agree paper on condition
 - contingent planning for range of
 issues - high / low rate of trans-
 mission.

Need to start now - not on 26 Nov,
 27 Nov - won't accept - Regs end
 if COVID very high.

Work to mitigate risk of opening,
 continue good work - schools,
 messaging, disease control.

Can't be back in same place leading
 up to 27th.

Feels like talka process

Negotiation mode - if it fails, we
 suffer - but now, negotiating -
 people elsewhere suffer,
 evidence, scrutiny.

Different approach in future.

This is embarrassing, depressing.

SMK

I or my party don't play sport
 with people's lives; not only
 COVID lives - all lives.

Object to remarks in recent days.

Distinction - consensus - ability
 to disagree.

SF - no cross-community vote,
 will not weaponise / sectarianise
 issue.

Abide by overall decision reached
 by exec.

DFE V3 of paper just issued -
sums up what we said in
discussion.

DFI legal reqs - proportionate etc -
constant in all reqs - apply to
DFE paper?
legally required to review reqs
- apply to new reqs if DFE
paper agreed?

Fm discussion re [].

Always say - only keep reqs in
place as long as necessary.

Regs need end date.

Walls - brought in reqs, set
end date.

DFI 4-week restriction - end date.
Review?

Fm In DOH qft at anytime to say
to Exec - we need new restrictions
- CMO advice.

DOH Reassurance -
Review in Reg Vb 2
Built into Vb 2 restrictions.

DOS other elements of reqs falling
- hospitality, gyms - all open
27th? Revert to Vb 2 reqs.

All restrictions from 13 Oct - end
on 27th?

FM DfH - concern re drafting new Regs.
Change date, per 2 more weeks.
Regs - continue for 2 weeks - examine
coffee shops - open next week
Need to use next 2 weeks - deal
with all Regs
Drafting - minimal - Regs to be
changed this evening.

dFm N3 circulated - DF2 paper
Adjourn to S. 10 pm to read.

X S.CDpm Adjourn

X Recomme S. 20

dFm Everyone got paper.

DOS X Voting solely to reach consensus/
closure
Support DfH original advice
Haguein - not to continue with this
farce.

dFm No cross Comm vote.

N.S FM For
dFm Against
DIAERIA For

DPC Against

DPE For

DE For

DOF Against

DOH [For]

DPI Abstain

DOY PDR

record - cancel DOF

" not far

enough

NS 6 for, 3 against, 1 abstention.

dPM exec proposals.

Job to do to gain public confidence

written statement - Assembly

Public - regain ground

N challenging week for everyone

- have a decision, move ahead.

DE

Qs re capacity - DOH

- critical care beds - 133

- context - Rose from?

Further increase planned?

- physical infrastructure of bed -

staff - off sick - how many?

- conversation today - ROI - new

process health staff - get back

quicker than 14 days

DOH

- ROI - not sure - will check

- intensive care beds - were 48,

can go up to 154 - staff

ratios / provision 1-1.25

Difference between sewage levels.

- staff sick - 341 COVID
 - self-isolation 698 (?)
 Other sick 3500 +
 4580 total off sick.

FM 4th Review of Regs.

DOH Regs No 2 - take of all other regs
 - 28 day review
 Still necessary,
 Agree paper
 28 day review - necessary +
 proportionate.

DPE

Irrelevant & Sensitive

DOH

No issue - Examiner of Stat Rules
 suggested.

FM

Agree Review?

Yes

FM

Irrelevant & Sensitive
