I was actually appalled at the total lack of any concept of how the HSC works as displayed especially by DD. Links to the comments from FM last weekend about "extra capacity". Hope way forward is better than that discussion would suggest. Best wishes, A

I do genuinely hope so Andrew. I suspect we will become the cannon fodder however. Shameless misuse and misrepresentation of what we did say. I appreciate this isn't easy and I'm sorry I can't make it any easier.

Reminds me of the Orwell quotation I sent you some weeks ago about how important it is to state the obvious. Vital to keep saying this. Best wishes.

Karen has been in touch re Christmas planning - UKG want announcement on Monday and CDL call with DAs late this afternoon. CMO advice to all four administrations is key. Could you take a call or pass on what you, Chris W and colleagues are advising please? Many thanks!
