On call. Obvious irritation with NI
non response!

Yep! We did raise this on Friday
with DoH several times before
speaking to you. Complete lack of
interest from DoH Gold as
they were packing up to go home.
May be tricky for our
Ministers tomorrow B

David is
aware...

Irrelevant & Sensitive

Not sure why he is second
guessing to this degree.

Numbers nerd

This is bit where we could have
provided something.

No will be led by DWP. We
just do what they do by
enlarge

I don't mean benefit detail, but
the specific NI aspects eg the
border, more than average
rurality etc

Ah yes see what you mean
now.

Councils will use this as a
call for funding!

NI is bound to struggle with
Adult Social Care and I
don't think that DoH want
to think about it

I will do a quick email to Ministers
after this, just to warn that the
slide deck is coming.

Ok thanks . Should we
circulate to Perm Secs
seek lines on what Depts
are considering or assume
that this work is ongoing.
The only evidence that I
have seen of any real
planning is Economy

Yes, but I think we need to wait
for advice from Michael on the
timing of this in NI.

Ok will do. I am concerned
about Depts delay in
planning. All a bit slow at
present, waiting to be
asked and told what to do
!?
