Subject: FW: Novel Coronavirus - sector resilience

David

To be aware.

I should have a better view of this after I have spoken to Michael or Liz. The latest information suggests that the outbreak may not peak in China for another 5 weeks, and for 2 to 3 weeks after that elsewhere.

CCPB, for a variety of reasons, is down to 2 members of staff, and I will need to take some fairly drastic reprioritisation decisions if we are called upon to play an active role for any length of time. I have quietly asked Stephen Rusk to think about lending us a few folk from NIO.

C

Chris,

Very much appreciated.

I anticipate the cross government coordination and wider sector resilience aspects will ramp up significantly.

Fully appreciate your capacity constraints at present and that you will wish to consider how best to augment.

Happy to discuss off line my sense of scale and timeframes.

Michael
