HOW ARE WE PERFORMING?

[DUE 07/05] %

Mortality rate vs mirror cohort

[DUE 07/05] %

Hospitalisation rate vs mirror cohort

46%

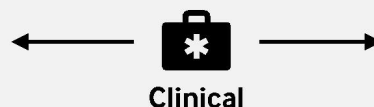

% known CEV registered

321k

Packages delivered in week (307k people registered as CEV who require food)

[TBC] %

Known / SD CEV with care delivery plan

Food

Care

Additional Outcome Measures

A number of provisional measures have been identified and are being established incl.:

- **Behavioural:** % people applying shielding guidance
- **Comms:** Number and % of the known CEV cohort contacted via the DWP call centre
- **Food:** % of eligible individuals receiving a food parcel within 7 days of their data being passed to food wholesalers or receipt of box
- **Care:** % and # of CEV individuals who have confirmed they are in need of care

WHAT ARE THE BARRIERS TO PROGRESS?

(governed by HMIG)

- Clarity and consistency of programme scope
- Data integrity and ineffective data flows that hinder delivery of the national or local support offer
- Decisions are not aligned where there are interdependencies across Departments
