Flag: Follow up

Dear Catherine, Michael, Frank

Here is the DRAFT plan for shielding. We need to get to No. 10 this pm, but subject to senior clinician delay.

My view is we will want to use an identical approach to moderate risk, and may need to vary approach to high risk depending on the local NHS and LA setup (but keep the clinical parameters the same).

For discussion Mon, but if you have major red flags let me know. We have done an extrapolation for your numbers just to Ministers have a sense of scale; they will need refining but are ballpark right.

Best wishes

Chris
