**Subject:** (RP Comments ) RE: URGENT- risk-benefit assessment of latest proposals for amendment to coronavirus restriction regulations

Liz

Thanks. These are scientific assessments, and thus I am content that we do not need to disturb the Minister with them. Unless, before he went on leave, he expressed a specific desire to see these: **NR** can helpfully advise) I am content that they are forwarded to TEO on the basis that I have cleared in absence of the Minister.

R.

**Subject:** URGENT- risk-benefit assessment of latest proposals for amendment to coronavirus restriction regulations

Richard,

Attached is a set of 4 proposals for amendment to the coronavirus restriction regulations this week, which will become an annex to a TEO Executive paper for decision at tomorrow's Executive meeting. Comments from Michael and Ian are captured within the document.

Please let me know preferred process for getting this to TEO today, with Ministerial box being closed this week.

Ian – just to be aware I added to your comments on concert halls and theatres ‘but not recommended yet given the recent recorded rise in community transmission’ which is the gist of what you are saying but I thought it needed to be spelt out. Let me know if any issues with this amendment.

Many thanks

Liz
