

RS - preventing a 2nd intervention. Turning on and off reduces compliance.

MO - Measures previously adopted were effective.

Single measures on their own are unlikely to be effective.

dFM - you talk about a hard intervention, we're wasting time.

RS is Executive's stated policy.

There's a way to deal with the school situation with extended holidays and online learning.

Parents will keep children at home with increased restrictions anyway.

The public mood will change.

FM - why are we only part of UK going into full lockdown.

My huge fear, business people, will find people committing suicide.

Trying to prevent COVID, dying from other things. Why are we concentrating on COVID?

CMO - Not worse place in Europe - cases and trajectory.

Provided that advice last week.

Timing and impact - decision asap

Implementation by 16 October required

these are all hard choices - ^{wave 1} people died of COVID, but also strokes, cancer.

We will peak at 450 - ⁵⁰⁰ ~~600~~ inpatients. Intervention in next 10 days would allow existing Health service to continue.

dFM - Funding announcement last week helps mitigate some of economic implications. trying to arrive at least worst option.

Need to be joined up and united in communication - increases public support.

RS - RS are you bringing a paper?
