16.00 - 17.00 MONDAY 17 MARCH

General Public Sector Ministerial Implementation Group

Objectives

- Welcome the opportunity to address those crucial areas of business outside of the fields of health and social care that must be progressed at this difficult time.
- Reach agreement that the **DAs and TOs should be present at all relevant meetings (clarifying that some will necessarily be England only) where the focus is on matters of devolved or partially devolved competence.**

Background

This is the first meeting of a group looking at public sector implementation priorities outside of the NHS and social care. The group is expected to examine a list of priorities and a summary dashboard, which will be shared in the room. You should expect the focus to very much be around scene-setting and agreeing a direction of travel for the group.

You may wish to focus on your recent involvement in COBR discussions and core emerging themes from your engagements in Northern Ireland. Following this afternoon's conversation with CDL, it is worth testing the appetite to incorporate the Devolved Administrations in the process to showcase a united, UK-wide approach shaped by the UK Government.
