Covid update - Significant update

R - 1.3 highest

12.9 tests per wk inc from 10.6.

43 + cases in last 24 hrs.

Significant inc in no of positive tests
Still not translating into ICU or hospital

Day 23 with 30 tests

younger people who are +

> 10% of population have downloaded
190,000 downloads

PHA weekly report on outbreaks - 2 or
more cases from non domestic
settings

Is there a pattern in all of this?

Workplace
Bars + Restaurants) Commercial
relaxations

Households still issue of concern.

Roll out at 30% downloads for proximity
app.

CNO - the more the better re downloads
but if get to 30% will have
impact

PHA update - critical areas - don't
want to identify individuals.

Naomi

App is great.

older operating systems can't download.

SD issue for younger people.

Holiday Resort areas. Hygiene issues.

CSA

Some indications this week of an early increase
weir in hospital admissions.

Testing turn around of results? - quicker
to be better.

CNO

available study - rapid turnaround.
single platform - multiple tests - flu/covid

→ 3 fold inc in R from early July

3 fold inc in tests

uptake in clusters => 5 in last 7 days
all point to early warning.

CSA

R is above 1

8 admissions in last 7 days of hospital
~~admissions~~ admissions

Cao. Concerned at level of community transmission. Prudent to pause at this stage given experience of other jurisdictions

Behaviour of individuals not sector itself.

Dodd.

Concerning R is increasing.

'Good to go' like NERC - on the spot inspections to ensure.

600 pubs will be impacted by decision

Can we review on a fairly frequent basis - will give comfort of stats

Keoney - Support the paper

Turbulent situation globally & locally.

Issue of support really important

Context needs to be spelt out.

Naalun.

Some inescapable bills

Face Masks

82% Compliance across public transport.

How can we capture data? Keren working with retail.

Doubts.

Confidence to go out & about. If requires Face Masks compromise with making

Workers do not have to wear Face Masks

Who is going to enforce Face Masks

CNO.

Ace Alan Todd engaged - not an operational priority - not appropriate supporting that visibility - engaging empowering to do right thing

If have to issue fixed penalty tickets will have failed

experience in Scotland / England

Friday - 60% 2 days before mandating

have developed Faces - will be made available.

Research from Ipsos Mori for England indicates consumer ~~can~~ confidence increases with face masks

Executive has taken the powers.

All need is commencement order

10th August enforcement action rule
but expect public to take appropriate
action

Radio campaign begins today

TV on Friday 14 Aug - space.

Cross dept Covid 19 vulnerability checker
✓ young people plan.

- targeted consultation

Information on support for care homes.

only 3 care homes not Covid
7 suspected

Education Restart & revised assumptions

fringe if don't open but worse.

intend to support schools fin' finance.

Rain Sea Port loan & grant limit

£35 → £90m
1989

covid 19 / Brexit.

Marriage & Taxi industry needs support.

freepots.

re NT

Policy context still vague

High Street makeover from TEO.
