Dear Secretariat

I am responding to your request of 10 April 2020 for update from my Department to the Executive's draft COVID-19 strategy.

As you will be aware, my Department has developed a strategy to oversee our response to COVID-19 in a holistic and co-ordinated manner. I would ask that the only action within the Executive Strategy for the Department of Health is in relation to the implementation and delivery of this DoH Strategy, as per action 1.12 in subsequent table. Minor amendments to this action are included in red.

Other actions for DoH should be removed at this point. This approach will ensure there is no confusion or duplication between the two documents and that all actions and metrics are fully aligned.
