**Subject:** Risk profiling and protecting healthcare workers in Scotland - BMA letter  
**Attachments:** BMA letter to Sir Simon Stevens, 28.04.20.pdf

Dear Malcolm

Copy Gillian Russell  
Gregor Smith

I attach the letter which the BMA has sent to Simon Stevens asking for action to be taken around risk profiling of healthcare workers, and for a revision in the NHS England approach to protecting those workers at greatest risk from covid-19.

The issues and concerns identified in that letter are also relevant in Scotland, albeit with a different healthcare worker population profile. Could we therefore ask you to consider the proposals and requests set out in the BMA letter to Simon Stevens, and share with us the current plans for risk profiling and protecting the healthcare workforce in Scotland? We stand ready to discuss what action is required in more detail, when that is helpful.

Best wishes

Jill
