Subject: Re: Mask FFP3 valved 9332+

Hi All

Thank you. We are on this one with Bruce and team. The price is very high btw. Even in today's market. So will need extra handling.

Best

Andy.

Andy
Are you able to handle this?
Pls confirm.
It seems like a terrific opportunity.
With thanks
James.

Subject: FW: Mask FFP3 valved 9332+

I have just spoken to David Mellor (a good friend of Michael Gove) who was asked to source PP3masks in China. He has managed to do so, and has been given a verbal commitment for 40m masks.

This as you will see below has come through the MOD (not sure why). He now need an urgent order to secure the 5m in Holland and the balance in China.

I think the documents and email below are fairly self explanatory. Not sure who would deal with is in your team?

Many thanks and best wishes
