

NHS Supply Chain Future Operating Model

- Supply Chain Coordination Limited commenced operations in April 2018 to manage the Future Operating Model of the NHS Supply Chain.
- The NHS Supply Chain manages the sourcing, delivery and supply of medical devices and clinical consumables for NHS Trusts and healthcare organisations across England and Wales.
- The Future Operating Model for NHS Supply Chain had 11 Category Towers, each managing a category of medical devices and clinical consumables.
- PPE was originally managed in Tower 2 which covered Sterile Intervention Equipment and Associated Consumables.
