Subject: Sourcing PPE from China.

All

The British Embassy Beijing has recently procured PPE supplies from manufacturers in China. I understand that a UK government Healthcare Ministerial Group will be tasked with the coordination of healthcare supplies, which should include the DAs. Another General Public Services Ministerial Group is coordinating PPE supplies for other groups and this also includes the China supplies.

In addition to this I have a list of suppliers in China, recommended by contacts there, and will send this on to Sharon to consider and if any are of use I will help with the follow up.

Regards

Tim
