Hi [Name Redacted]

I am hoping you can help in picking up from me one of my cases when I leave tomorrow. Probably one of the most politically sensitive ones.

It is CKF Healthcare, who I have been speaking to for a number of weeks now there Mendix No is 16955. I have attached the initial case allocation which was sent to me. The contact is James Curliss [Irrelevant & Sensitive] [Personal Data] they are financially backed, you can see from one of the attachments in the attached email. They have also offered us access to stock of PPE in China, second attachment, I have not progressed this offer yet as I have been focusing on progressing the direct offers through TA in recent days.

In summary James has links to very very senior guys in China (rulers, senior bank officials and diplomats) who have been able to secure us production capacity in some of the largest on the whitelist, he is clearly very well connected to some very influential people.

They currently have a number of products in TA, one of which in closing and I have suggested a RR be stood up as it is for goggles [NR] are trying to set up a RRT to deal with this.

I will be placing all of my folders in the hand over file in teams tomorrow so there will be full traceability of what they have offered, Mendix will also be up to date with my notes. I will not unlock their account until tomorrow and when I do I will let you know so you can jump in and assign them to yourself.

James is a really nice guy to deal with too.

Thanks [Name Redacted]

Kind Regards
