

The Situation Right Now

- Warehouse demand 150%
- Increasing stock-outs
- Inundated with “offers” of help
- Government/DoH interest
- Public interest
- Press coverage
- People are anxious – even fearful
- Our teams are now dispersed – the working environment unrecognisable
- We are as in demand as doctors and nurses
- We need to adapt to the situation **RAPIDLY**
- We’re on a learning cliff – not a curve
