**ANNEX F: REOPENING CLOSED BUSINESSES AND VENUES - INITIAL PROPOSITIONS**

On 23 March, the Government required the businesses and venues in the table below to close. This paper summarises the initial propositions as to whether/how we should reopen these. More details are set out in the separate Safer Workplaces and Public Spaces fiches.

As per the Safer Workplaces fiche, a segmented approach to opening up the retail sector could involve treating different types of outlet differently. Below this first table is the ONS standard classification of retail outlets that could be used as the basis for deciding which type of premise could reopen.

In addition to the businesses below, by virtue of the requirement to stop public gatherings of more than two people, the following activities were essentially stopped from taking place:

- professional sporting events; and
- TV and film production.
