**Subject:** Slide for this afternoon's SAG Briefing

Hi Jim,

One of the presenters this afternoon has requested a very minor changes to her slide. I've attached the updated slides to be used. The only change is the size of the heading on slide 3.

In addition, we had previously included a draft version of advice on physical distancing and superspreading. As the final version was circulated on Friday, please replace the previous version with the one attached.

Best,

[redacted] NR
