

0915 C-19 STRATEGY MEETING
THURSDAY 26 MARCH 2020, 0915 - 1000

Live Actions

1. **Secretariat** to discuss with the **Territorial Offices** what action can be taken today to generate health reporting data from Scotland and Northern Ireland as soon as possible.
2. **CCS**, working with **DHSC and NHS**, to ensure that more granular health data is represented on the dashboard, by the end of the day today, (where possible showing a four-day rolling average), including, but not limited to:
 - a. Headline data on supply and demand in the NHS;
 - b. Intensive care capacity;
 - c. Ventilator capacity;
 - d. PPE supply;
 - e. Roll-out of testing (including projections) and supply of necessary components (eg swabs and reagents);
3. **CCS** to include in the dashboard comparative data from other countries (including Italy, the US and China), and significant cities (including New York) by the end of the day today.
4. **CCS** to ensure that the dashboard is handled securely.
5. **Secretariat** to schedule further strategic discussion on the measures that should be taken when cases stop rising.
6. **Irrelevant & Sensitive**
7. **The FCO** to take forward discussions with the **General Public Sector Implementation Group** should they require further resource for the FCO call centre.
8. **Chief Medical Officer** to circulate the criteria and principles for testing individuals to the attendees of today's meeting.

Decisions

1. The CCS dashboard will now act as the single source of truth on data for PM meetings. No other data should be discussed in 0915 meetings unless it is represented on the CCS dashboard. Any comments or requests for additions to the dashboard data should be sent to **I&S**

2. The meeting endorsed the FCO's four-point plan to deliver an effective international response, including through the G20.
3. The meeting agreed that there should be no further restrictions imposed on airline travel into the UK for the time being, but that this should be monitored based on the latest epidemiological advice and the success of continuing efforts to repatriate British nationals.

ADDITIONAL ACTIONS FROM 0815

Live Actions

1. **All departments** to note that the new CCS dashboard will now act as the single source of truth on data for the PM 0915 meetings, and more broadly.
2. **All departments** to contact CCS directly [redacted] **I&S** [redacted] should they have any updates on the data in the CCS dashboard.
3. **CCS** to add a trend line representing the 'V' numbers in the ICU data.
4. **CO Comms and Secretariat** to schedule a discussion today to agree external communications on ventilators.

Decisions

4. The 0815 should decide what data from the daily dashboard should be highlighted in the 0915 meeting. The update should include HMG responses and next steps. Data highlighted in the 0915 should include immediate issues and more medium-term trends.
