The recent COVID-19 Pupils, Parents and Young People's Survey (Wave 1) asked parents "Is your child currently receiving any support specifically related to their SEND from their school or setting?"

This suggests that many pupils may not be receiving any support related to their SEND from their school or setting. This seems to emphasise the importance of risk assessing whether these pupils should be attending a setting.

Base sample: all parents saying they had a child with SEND n = 113 primary, 133 secondary

Ranges exclude the lower limit and include the upper limit so 0% are also coloured like NA.
