Subject: FW: URGENT: Submission UC Budget Options

Hi [NR]

Please find MfWD comments and recommendations below to accompany the UC budget options submission. As you can see, he feels quite passionately about these measures and would be happy to meet SoS to discuss further if needed.

I understand that SoS has changed her view and is now considering keeping the standard allowance increase for another year after it was supposed to end. Can you provide any further clarity on her position?

Many thanks,

[NR]

[NR]

Assistant Private Secretary to Will Quince MP, Minister for Welfare Delivery
Department for Work and Pensions | Ministers, Governance & Strategy Directorate
Caxton House, 6-12 Tothill Street, London, SW1H 9NA

Subject: Re: URGENT: Submission UC Budget Options

The Secretary of State knows my view and how much work, officials and I have done to work out a plan that addresses numerous objectives.

As I see it, there are many benefits to maintaining the standard allowance increase and increasing the child element;

- 1) Politically it would be toxic for us to remove it in April and colleagues, especially 2019 intake colleagues are very concerned by this. I would not feel comfortable defending this at the Despatch box and we would face considerable criticism from the public, journalists and charities,
- 2) Look at the job losses now and on the horizon, we are not in work incentive territory but fiscal stimulus territory and these are the best measures for that with a strong multiplier effect.
- 3) By creating the natural cliff edge, you create a huge incentive to move to UC making the pilot largely redundant with huge numbers moving naturally at lower cost saving on transitional protection.
- 4) These two measures significantly turn the dial on poverty (all measures) and child poverty helping us meet our manifesto commitment by 2024.
