

Title: COVID-19 Vaccinations of Residents and Staff in Older Adult Care Homes by NHS Region**Summary^{1,2}:** The number and proportion of older adult care homes where at least 80% of staff and 90% of residents have been vaccinated, alongside the number and proportion of residents and staff of older adult care homes who have been vaccinated for COVID-19 as reported by care homes. Figures relating to residents and staff are as recorded on the Capacity Tracker tool and have been developed jointly with the Department of Health and Social Care.**Period³:** 8th December 2020 to 13 June 2021**Source⁴:** Capacity Tracker**Basis:** England**Published:** 15 June 2021**Status:** Published

NHS Region	Residents of Older Adult Care Homes ^{5,6}				
	Total number of residents	Total number of residents eligible for vaccination due to not having had COVID-19 in last 28 days ⁸	Number of eligible residents vaccinated with 1st dose	% of eligible residents of older adult care homes vaccinated with 1st dose	Number of eligible residents vaccinated with 2nd dose
England	306,590	306,267	292,218	95.4%	279,732
East Of England	36,163	36,142	34,771	96.2%	33,451
London	22,825	22,801	21,291	93.4%	20,417
Midlands	60,523	60,446	57,622	95.3%	54,900
North East And Yorkshire	52,305	52,281	49,894	95.4%	48,006
North West	42,718	42,619	40,742	95.6%	38,693
South East	54,577	54,535	52,195	95.7%	49,860
South West	37,479	37,443	35,703	95.4%	34,405

Data notes:

1. The Scientific Advisory Group for Emergencies (SAGE) have advised that 80% of staff and 90% of residents of older adult care homes need to be vaccinated to provide a minimum level of protection against outbreaks of COVID-19.
2. Daily, weekly and monthly NHSEI Covid-19 vaccination statistics are available at <https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-vaccinations/>
3. Data in these tables have been provided by the Department of Health and Social Care and were extracted from Capacity Tracker on 13 June 11:59pm. Data may have a time lag between individuals receiving the vaccine and vaccinations being reported.
4. Capacity Tracker is data reported by care providers and refers to data reported by 97% of providers identified by Care Quality Commission as in scope.
5. Older Adult Care Homes here are defined as care homes serving any older people (aged 65+) as identified from the latest Care Quality Commission data on care homes in the Older People Service user band.
6. A small number of residents within care homes serving older people may be aged under 65.
7. Staff refers to those directly employed by the provider and agency staff.
8. Total numbers of eligible residents and staff exclude those who have tested positive for COVID-19 in the last 28 days and cannot currently be vaccinated, and exclude a small number living or working in care homes which currently are not serving older people. It also includes residents and staff who did not receive the vaccine for valid medical reasons, or where consent to receive the vaccination was not provided by a resident, staff member with capacity for decision, deputy or attorney for Health and Welfare with relevant authority on behalf of a resident who lacks capacity to consent, or for a best interests decision made on behalf of a resident who lacks capacity to consent. The number of residents and staff who have tested positive for COVID-19 in the last 28 days is taken from DHSC Foundry. This is number of tests among all care homes identified as serving older residents or providing dementia care so may include a small number of tests from homes serving only younger people with dementia. Note this is based on number of tests, not unique people tested, so may contain a small number of duplicates.
